REGULAR SESSION
MAY 5, 2025 – 7:00 P.M.
CITY HALL – 110 W. CLARK ST. OXFORD, GA 30054
A G E N D A**

- 1. Call to Order – Mayor David S. Eady**
- 2. Motion to accept the Agenda for the April 5, 2025 Mayor and Council Regular Meeting.**
- 3. Consent Agenda:**
 - a. *Minutes of the City Council Regular Session on April 7, 2025
 - b. *Minutes of the City Council Special Called Work Session on April 9, 2025
 - c. *Minutes of the City Council Work Session on April 21, 2025
- 4. Mayor's Report:**
 - a. ***Trail Project Change of Scope** – Staff and engineering are recommending the elimination of the W. Wade St to Cousins Community Center Trail due to a projected cost overrun of \$803,676.48. Without this trail, the budget would be in excess \$454,880 which could be applied to enhancements to the other two trails, such as maps, historical, and natural interpretation, trail furniture, trail head parking. Please see attached materials.
 - b. ***Review of Roads Paved**
- 5. Citizen Concerns:**
- 6. *Nominations from the Council for the July 4th Parade's Grand Marshal**
- 7. *Consideration of a Capital Budget Amendment Resolution for FY 2025:** This resolution would transfer funds from capital line items which were over budgeted to those which were under budgeted.
- 8. *Changes to Oxford's Investment Portfolio:** In meetings between staff and officials representing United Bank, we have recommendations for investments which should increase our income considerably. Mr. Strickland has reviewed our investment policy and is of the opinion that this strategy is in compliance (the policy is attached, see Section 32, p. 16).
- 9. *Update to the Oxford Animal Control Ordinance:** Newton County has requested all municipalities to update their animal control ordinances to provide uniformity across jurisdictions and to ensure compliance with any new state requirements. Chief Anglin and Mr. Strickland have reviewed the suggested ordinance and do not have any concerns. Mr. Strickland has created a comparison document, which weighs our current ordinance with the proposed ordinance (see 009c).
- 10. *Consideration of a Maintenance Bond Agreement with Archer Aviation for Sewer and**

Water Improvements: This bond for \$62,435.74 (20% of the project cost) will be in place for two years. The City would be able to call for the funds if there were maintenance requirements on the system which was installed by Evans General Contractors for Archer Aviation.

11. *Request to Purchase Ford F150 Lightning truck for the Department of Public Works:

This vehicle is included in the approved FY 2025 Capital Budget for \$55,000 (\$25,000 in Electric Capital and \$30,000 in Water/Sewer Capital). Quotes are attached.

- a. Covington Ford = \$44,656
- b. Courtesy Ford = \$72,165
- c. Akins Ford = \$61,906

12. *Request to Consider Amended Axon Contract: The camera data storage contract was due to expire in 2025 and to ensure the balance of the budget, Chief Anglin asked Axon to look at the contract. The new contract extends the storage of the cameras, from 860 GB to unlimited storage in Axon Evidence. The Performance feature was added, and the Body Worn Camera contract was extended to 2029. This new contract will condense the two contracts into one. The price difference for budgeting for the two contracts is less than \$1,000 to be added to the Tech Purchase and Service Contracts line.

13. *Invoices: Council will review the city's recently paid invoices over \$1,000.

14. Executive Session: An Executive Session could potentially be held for Land Acquisition/Disposition, Addressing Pending or Potential Litigation, and/or Personnel.

15. Adjourn

City of Oxford

Oxford, GA 30054

Dear Public Depositor,

In 2016, the Georgia General Assembly passed and Gov. Deal signed Senate Bill 283 authorizing a multibank, contingent liability pledging pool to protect public deposits.

United Bank has been approved by the State Depository Board and State Treasurer to participate in this program, which is called the Georgia Secure Deposit Program (SDP).

Beginning February 1, 2022, your deposits with our bank will be fully protected through this new program.

The way the program works is that 100 percent your deposits with us in excess of FDIC insurance limits will be fully protected by the program. The funds on deposit with us in excess of FDIC insurance limits will be secured by a combination of collateral pledged to the program by us and a financial commitment by all the approved Covered Depositories in the program to cover any losses resulting from the failure of any bank participating in the SDP. As explained in the SDP Policy, in the event of the failure of a Covered Depository, public depositors will be covered by FDIC insurance, the liquidation of collateral pledged to the State Treasurer by the failed institution, and assessments made by the State Treasurer on all other SDP Covered Depositories to the extent needed to cover any shortfall.

Because we are participating in this program, **our bank can no longer use the direct pledging method of collateralization for public deposit accounts.** As described above, your deposits will be fully protected and covered by FDIC insurance and the Georgia Secure Deposit Program.

As part of the oversight of the program to ensure bank compliance and protection of public deposits, beginning in July 2019, the Treasurer, through the Georgia Bankers Association Services, Inc. as Administrator of the program, provides public reporting about the depositories participating in the program. Reporting includes information about each covered depository's total deposits in the program, each depository's required collateralization level, the amount each covered depository is over or under its required collateralization amount and the pro-rata share of each covered depositor's balance as a percent of the total amount of deposits in the program. Also, the Treasurer will also post monthly a list of depositors covered by the program, which will include your account name, but not the amounts you have on deposit.

Your auditors may continue to request confirmation that your deposits are protected. The monthly reports about the banks participating in the Secure Deposit Program, lists of depositors they report being covered and the monthly summary of the program's status are available at <https://sdp.treasury.ga.gov/Home/Reports>

This letter and a download of the summary reports available for a particular period should serve to meet your needs for audit purposes that your bank's deposits are appropriately protected according to Georgia law.

To verify protection of your organization's public deposits by the Georgia Secure Deposit Program:

- Select the period for which you're seeking confirmation from the drop-down menu. The July 17, 2019 report was a special mid-month report we did to get a snapshot of the first couple weeks of the program, which went live July 1, 2019. Reports are prepared once a month after all participants report their prior months' information.
- Check the List of Covered Depositories to make sure your bank is in the program.
- Check the List of Depositors provided by banks to see if your organization/account name is included. This is a list of all depositors banks have reported as being covered by the program. Duplicates are removed, so a customer may have relationships with multiple banks participating in the program and they'll only show up once if both banks have the same account named. There is also an FEIN lookup feature that may be helpful to you in identifying your accounts and the banks you have relationships with. Enter the FEIN exactly as your bank has reported, including hyphens and spaces and select search. Note: your organization's official name may differ slightly from how you and your bank have your covered account named/listed/reported. If you have questions, contact your bank.
- If your bank is listed as a Covered Depositor and your organization/account is listed as a depositor, your accounts are protected by the program.
- There's also a summary report of the program by bank, of deposits, required collateral, reported collateral values etc. This is a snapshot in time, and it's important to note that if a bank is listed as under collateralized on a particular report, the bank would have had three-business days to add pledged collateral to be in compliance.

The policy governing the Secure Deposit Program is available online at <https://ost.georgia.gov/news-events>

Please contact Joseph Langford at jangford@unitedbank.net, or Haley Green at hgreen@unitedbank.net, if you have any further questions regarding the SDP.

Sincerely,

Subject: W. Wade Street to Cousins Community Center Trail

Attachments: [CITY OF OXFORD COST EST. FOR THREE TRAILS 4-25-25 .pdf](#)
[2025.03.31 Cousins MS to W Wade ST.pdf](#)

Dear Council Members,

With more survey work and field data coming in, John Boudreau, with AtkinsRéalis, has been able to refine the budget for the Three Trails (see attached). Due to the greatly expanded length of the W. Wade Street to the Cousins Community Center Trail, ***we are now projected to be over budget by \$803,676.48***. This number ***does not*** include the costs for acquiring the land/easement from private property owner(s), which will have to be a condemnation process for this trail, which likely will delay us further—something we cannot afford either. We do not anticipate a cost for the easement from the School Board or the County.

We have discussed various ways to trim this project, but it is unlikely we could come near to being within budget.

This is unfortunate because Newton County staff has shown interest in speaking with the County Commission District Representative about the County connecting to our trail, which is currently terminating just behind the old band room.

The recommendation from Mr. Boudreau and from Oxford staff is to ***eliminate the W. Wade Street to the Cousins Community Center Trail and continue with the E. Soule Street and W. Bonnell Street trails***. This will enable the project to stay within budget and possibly to afford a low-impact trail head/interpretative (natural and historical) area near Catova Creek on the former Giles property or other trail enhancements we can agree on quickly.

We need to discuss and vote formally on this at the Monday, May 5th Council Meeting, so that we can give AtkinsRéalis clear and immediate direction. Time is of the essence as this project will have to be bid out winter of CY25/26 and construction will need to be completed by September 1, 2026.

If you have any questions or concerns, please do not reply all, but rather reply to me and Bill directly.

All the best,
David

O.C.G.A. § 36-81-3

Copy Citation

Current through Act 6 of the 2025 Regular Session of the General Assembly but not including corrections and changes made by the Office of Legislative Counsel.

36-81-3. Establishment of fiscal year; requirement of annual balanced budget; adoption of budget ordinances or resolutions generally; budget amendments; uniform chart of accounts.

(a) The governing authority shall establish by ordinance, local law, or appropriate resolution a fiscal year for the operations of the local government.

(b)

(1) Each unit of local government shall adopt and operate under an annual balanced budget for the general fund, each special revenue fund, and each debt service fund in use by the local government. The annual balanced budget shall be adopted by ordinance or resolution and administered in accordance with this article.

(2) Each unit of local government shall adopt and operate under a project-length balanced budget for each capital projects fund in use by the government. The project-length balanced budget shall be adopted by ordinance or resolution in the year that the project initially begins and shall be administered in accordance with this article. The project-length balanced budget shall appropriate total expenditures for the duration of the capital project.

(3) A budget ordinance or resolution is balanced when the sum of estimated revenues and appropriated fund balances is equal to appropriations.

(4) Nothing contained in this Code section shall preclude a local government from adopting a budget for any funds used by the local government other than those specifically identified in paragraphs (1) and (2) of this subsection, including enterprise funds, internal service funds, and fiduciary funds.

(c) For each fiscal year beginning on or after January 1, 1982, each unit of local government shall adopt and utilize a budget ordinance or resolution as provided in this article.

(d) Nothing contained in this Code section shall preclude a local government from amending its budget so as to adapt to changing governmental needs during the budget period. Amendments shall be made as follows, unless otherwise provided by charter or local law:

(1) Any increase in appropriation at the legal level of control of the local government, whether accomplished through a change in anticipated revenues in any fund or through a transfer of appropriations among departments, shall require the approval of the governing authority. Such amendment shall be adopted by ordinance or resolution;

(2) Transfers of appropriations within any fund below the local government's legal level of control shall require only the approval of the budget officer; and

(3) The governing authority of a local government may amend the legal level of control to establish a more detailed level of budgetary control at any time during the budget period. Said amendment shall be adopted by ordinance or resolution.

(e) The Department of Community Affairs, in cooperation with the Association County Commissioners of Georgia and the Georgia Municipal Association, shall develop local government uniform charts of accounts. The uniform charts of accounts, including any subsequent revisions thereto, shall require approval of the state auditor prior to final adoption by the Department of Community Affairs. All units of local government shall adopt and use such initial uniform charts of accounts within 18 months following adoption of the uniform charts of accounts by the Department of Community Affairs. The department shall adopt the initial local government uniform charts of accounts no later than December 31, 1998. The department shall be authorized to grant a waiver delaying adoption of the initial uniform charts of accounts for a period of time not to exceed two years upon a clear demonstration that conversion of the accounting system of the requesting local government, within the time period specified in this subsection, would be unduly burdensome.

(f) The department's implementation of subsection (e) of this Code section shall be subject to Chapter 13 of Title 50, the "Georgia Administrative Procedure Act."

Re: City of Oxford Investment Strategy

This memo is to summarize our research on Oxford's investments and our recommendations for improving our investment returns.

1. The Mayor and City Council had asked us recently to talk to United Bank about possible alternatives for improving our rate of return on our checking accounts.
2. We met with officials at United Bank and they offered a couple of different options for improving our rate of return.
 - a. Change our bank accounts to money market deposits which would result in a higher interest rate for the accounts. All but one of our accounts currently earns .05% interest. The one exception, our Gold Reserve account, earns 1.2% interest. The rate would fluctuate depending on market conditions. The rate as of 4/15/2025 was 2.975%.
 - b. Invest some of our capital fund balances in federated government money market funds or in U.S. Treasuries through the bank. The rates as of 4/11/2025 are listed below:
 - i. Federated Gov't Money Market: 4.22%
 - ii. Treasuries:
 - 1 Month: 4.0%
 - 3 Month: 4.1%
 - 6 Month: 4.0%
 - 9 Month: 4.0%
 - 12 Month: 3.9%
3. Our City Attorney confirmed that the money market mutual fund falls within the parameters of the Authorized Investment listing in the City of Oxford Financial Policies.

Recommendation:

My recommendation is to place most of our Capital account funds and Gold Reserve funds into the federated government money market funds (item b.i. on the previous page), leaving a small amount in each account for urgent capital needs. Although there is slightly more risk with these funds than with the longer-term Treasuries, the liquidity of our money is also a concern of mine. Treasury investments are locked for the full length of time to maturity, while the money market products are available for withdrawal within one day. With several capital projects being considered during the next fiscal year, I feel nervous about tying up our money for a longer period of time.

Changing the interest rate on the bank accounts does not provide as high a return as the federated government money market funds or the Treasury funds. Additionally, new account numbers would have to be created for the accounts that are changed, which would be an administrative nightmare.

Below is a list of the Capital and Gold Reserve checking accounts that we have, along with my recommendations for amounts to move to the money market mutual fund. Attached are the prospectus and fact sheet for the money market mutual fund, email correspondence with David Strickland with the excerpt from the City of Oxford Financial Policies, and email correspondence with the bank officials concerning the interest rates.

I will be happy to address any questions regarding this matter.

Subject: RE: Investments Allowed - Financial Policy

Marcia,

I have reviewed the prospectus, as well as some additional independent information, and I also talked to Thomas K.

I agree that this fund is exactly the type of investment contemplated by our current investment directives. I believe that we can move forward without any needed changes to the "authorized investments" verbiage. Thomas also confirmed that a number of other local government clients invest in this, and have reported no audit concerns subsequently.

Thanks,

Subject: Investments Allowed - Financial Policy

David,

The Authorized Investments document attached is extracted from our City of Oxford Financial Policies. Also attached are a couple of documents concerning some investments we are interested in at United Bank, which is the holder of our checking accounts. We need to know if these funds would fall under the list of investments allowed per the policy, or if we would have to request a change to the policy before the City Council. We were referred to our city attorney by the bank. Are you able to help with this?

SUPPLEMENT TO PROSPECTUS AND STATEMENT OF ADDITIONAL INFORMATION DATED SEPTEMBER 30, 2024

1. In the Prospectus section entitled “**Payments to Financial Intermediaries,**” under “**Additional Payments to Financial Intermediaries,**” please delete the section in its entirety and replace with the following:

“ADDITIONAL PAYMENTS TO FINANCIAL INTERMEDIARIES AND OTHER PERSONS

The Distributor may pay, out of its own resources, amounts to certain financial intermediaries, including broker-dealers, banks, registered investment advisers, independent financial planners and retirement plan administrators, and other persons, that support the sale of Shares or provide services to the Fund and/or its shareholders. The amounts of these payments could be significant, and may create an incentive for the financial intermediary or its employees or associated persons or other persons to recommend or sell Shares of the Fund to you. Not all financial intermediaries and other persons receive such payments and the amount of compensation may vary. In some cases, such payments may be made by or funded from the resources of companies affiliated with the Distributor (including the Adviser). These payments are not reflected in the fees and expenses listed in the fee table section of the Fund’s Prospectus and described above because they are not paid by the Fund.

These payments are negotiated and may be based on such factors as: the number or value of Shares that the financial intermediary or other person sells, may sell or arrange for the sale of Shares; the value of client assets invested; the level and types of services or support furnished by the financial intermediary; or the Fund’s and/or other Federated Hermes funds’ relationship with the financial intermediary. These payments may be in addition to payments, as described above, made by the Fund to the financial intermediary or other person. In connection with these payments, the financial intermediary may elevate the prominence or profile of the Fund and/or other Federated Hermes funds, within the financial intermediary’s organization by, for example, placement on a list of preferred or recommended funds and/or granting the Distributor preferential or enhanced opportunities to promote the funds in various ways within the financial intermediary’s organization. You can ask your financial intermediary, or any other person that provides services to you, for information about any payments it receives from the Distributor or the Fund and any services provided, as well as about fees and/or commissions it charges.”

2. In the Statement of Additional Information section entitled “**How is the Fund Sold?,**” under “**Additional Payments to Financial Intermediaries,**” please delete the header and first paragraph and replace with the following:

“ADDITIONAL PAYMENTS TO OTHERS (INCLUDING FINANCIAL INTERMEDIARIES)

The Distributor may pay out of its own resources amounts to certain financial intermediaries, including broker-dealers, banks, registered investment advisers, independent financial planners and retirement plan administrators, and other persons. In some cases, such payments may be made by, or funded from the resources of, companies affiliated with the Distributor (including the Adviser). While Financial Industry Regulatory Authority, Inc. (FINRA) regulations limit the sales charges that you may bear, there are no limits with regard to the amounts that the Distributor may pay out of its own resources.

In addition to the payments which are generally described herein and in the Prospectus, the financial intermediary also may receive payments under, if applicable, a Rule 12b-1 Plan and/or Service Fees. In connection with these payments, the financial intermediary may elevate the prominence or profile of the Fund and/or other Federated Hermes funds within the financial intermediary’s organization by, for example, placement on a list of preferred or recommended funds and/or granting the Distributor preferential or enhanced opportunities to promote the funds in various ways within the financial intermediary’s organization.

Financial intermediaries and other persons may receive payments under some or all categories described below. These payments assist in the Distributor's efforts to support the sale of Shares and compensate financial intermediaries and other persons for performing ancillary services in connection with effecting sales of the funds. These payments are negotiated and may be based on such factors as: the number or value of Shares that the financial intermediary or other person sells or may sell or arrange for the sale of Shares; the value of client assets invested; the level and types of services or support furnished by the financial intermediary; or the Fund's and/or other Federated Hermes funds' relationship with the financial intermediary.

Not all financial intermediaries and other persons receive such payments and the amount of compensation may vary. You should ask your financial intermediary, or any other person that provides services to you, for information about any payments it receives from the Distributor or the Federated Hermes funds and any services it provides, as well as the fees and/or commissions it charges."

3. In the Statement of Additional Information section entitled "**How is the Fund Sold?**," under "**Processing Support Payments**," please delete the section in its entirety and replace with the following:

"Processing Support Payments

The Distributor may make payments to certain financial intermediaries that offer Federated Hermes investment companies to help offset their costs associated with client accounts in the fund. The types of payments that the Distributor may make under this category include, but are not limited to: payment for administrative services, like account maintenance support and statement processing; payment for costs associated with transacting in the funds, like payment of ticket charges on a per-transaction basis; payment of networking fees; and payment for ancillary services related to setting up funds on the financial intermediary's mutual fund trading system, including technology and programming set-up, platform development and maintenance or similar services."

4. In the Statement of Additional Information section entitled "**How is the Fund Sold?**," under "**Marketing Support Payments**," please delete the section in its entirety and replace with the following:

"Marketing Support Payments

From time to time, the Distributor, at its expense, may provide additional compensation to financial intermediaries, or other persons, that sell or arrange for the sale of Shares. Such compensation, provided by the Distributor, may include "finders" or "referral fees" or directing investors to a fund, financial assistance to financial intermediaries that enable the Distributor to participate in or present at meetings, conferences or seminars, sales or education and training programs for invited registered representatives and other employees, client entertainment, client and investor events and other financial intermediary-sponsored events. The Distributor may also provide additional compensation for the provision of sales or intermediary related data and analytics to the Adviser and/or its affiliates.

The Distributor also may hold or sponsor, at its expense, sales events, conferences and programs for employees or associated persons of financial intermediaries and may pay the travel and lodging expenses of attendees. The Distributor also may provide, at its expense, meals and entertainment in conjunction with meetings with financial intermediaries. Other compensation may be offered to the extent not prohibited by applicable federal or state law or regulations, or the rules of any self-regulatory agency, such as FINRA. These payments may vary depending on the nature of the event or the relationship.

For the year ended December 31, 2023, the following is a list of FINRA member firms that received additional payments from the Distributor or an affiliate. Additional payments may also be made to certain other financial intermediaries or other persons that are not FINRA member firms that sell Federated Hermes fund shares or provide services to the Federated Hermes funds and shareholders. These firms are not included in this list. Any additions, modifications or deletions to the member firms identified in this list that have occurred since December 31, 2023, are not reflected. You should ask your financial intermediary or any other person that provides services to you for information about any additional payments it receives from the Distributor.

Federated Hermes Government Obligations Fund (the “Fund”)

RISK/RETURN SUMMARY: INVESTMENT OBJECTIVE

The Fund is a money market fund that seeks to maintain a stable net asset value (NAV) of \$1.00 per Share. The Fund’s investment objective is to provide current income consistent with stability of principal.

RISK/RETURN SUMMARY: FEES AND EXPENSES

This table describes the fees and expenses that you may pay if you buy, hold and sell Select Shares (SEL) of the Fund. **You may pay other fees, such as brokerage commissions and other fees to financial intermediaries, which are not reflected in the tables and examples below.**

Shareholder Fees (fees paid directly from your investment)

	SEL
Maximum Sales Charge (Load) Imposed on Purchases (as a percentage of offering price)	None
Maximum Deferred Sales Charge (Load) (as a percentage of original purchase price or redemption proceeds, as applicable)	None
Maximum Sales Charge (Load) Imposed on Reinvested Dividends (and other Distributions) (as a percentage of offering price)	None
Redemption Fee (as a percentage of amount redeemed, if applicable)	None
Exchange Fee	None

Annual Fund Operating Expenses (expenses that you pay each year as a percentage of the value of your investment)

	SEL
Management Fee ¹	0.15%
Distribution (12b-1) Fee	None
Other Expenses	0.11% ²
Total Annual Fund Operating Expenses ¹	0.26%
Fee Waivers and/or Expense Reimbursements ^{1,3}	(0.09)%
Total Annual Fund Operating Expenses After Fee Waivers and/or Expense Reimbursements	0.17%

1 The Management Fee, Total Annual Fund Operating Expenses and Fee Waivers and/or Expense Reimbursements have been restated to reflect current fees due to a reduction in the stated gross Management Fee for the Fund effective October 1, 2023.

2 The Fund may incur and pay certain service fees (shareholder services/account administration fees) on its SEL class of up to a maximum of 0.25%. The Fund will incur and pay up to 0.02% of such Fees for the SEL class of the Fund. The SEL class of the Fund will not incur and pay such Fees to exceed 0.02% until such time as approved by the Fund’s Board of Trustees (the “Trustees”).

3 The Adviser and certain of its affiliates, on their own initiative, have agreed to waive certain amounts of their respective fees and/or reimburse expenses. Total annual fund operating expenses (excluding acquired fund fees and expenses, interest expense, extraordinary expenses and proxy-related expenses paid by the Fund, if any) paid by the Fund’s SEL class (after the voluntary waivers and/or reimbursements) will not exceed 0.17% (the “Fee Limit”) up to but not including the later of (the “Termination Date”): (a) October 1, 2025; or (b) the date of the Fund’s next effective Prospectus. While the Adviser and its affiliates currently do not anticipate terminating or increasing these arrangements prior to the Termination Date, these arrangements may only be terminated or the Fee Limit increased prior to the Termination Date with the agreement of the Trustees.

Example

This Example is intended to help you compare the cost of investing in the Fund with the cost of investing in other mutual funds.

The Example assumes that you invest \$10,000 for the time periods indicated and then redeem or hold all of your Shares at the end of those periods. The Example also assumes that your investment has a 5% return each year and that operating expenses remain the same. The Example does not reflect sales charges (loads) on reinvested dividends. If these sales charges (loads) were included, your costs would be higher. Although your actual costs and returns may be higher or lower, based on these assumptions your costs would be:

1 Year	\$ 27
3 Years	\$ 84
5 Years	\$146
10 Years	\$331

RISK/RETURN SUMMARY: INVESTMENTS, RISKS AND PERFORMANCE

What are the Fund's Main Investment Strategies?

The Fund invests in a portfolio of U.S. Treasury and government securities maturing in 397 days or less and repurchase agreements collateralized fully by U.S. Treasury and government securities. The Fund may also hold cash. The Fund limits its investments to those that would enable it to qualify as a permissible investment for federally chartered credit unions as set forth in applicable federal banking regulations.

Certain of the government securities in which the Fund invests are not backed by the full faith and credit of the U.S. government, such as those issued by the Federal Home Loan Mortgage Corporation ("Freddie Mac"), the Federal National Mortgage Association ("Fannie Mae") and the Federal Home Loan Bank System. These entities are, however, supported through federal subsidies, loans or other benefits. The Fund may also invest in government securities that are supported by the full faith and credit of the U.S. government, such as those issued by the Government National Mortgage Association ("Ginnie Mae"). Finally, the Fund may invest in certain government securities that are issued by entities whose activities are sponsored by the federal government, but that have no explicit financial support.

In pursuing its investment objective and implementing its investment strategies, the Fund will comply with Rule 2a-7 under the Investment Company Act of 1940 ("Rule 2a-7").

The Fund will operate as a "government money market fund," as such term is defined in or interpreted under Rule 2a-7 under the Investment Company Act of 1940, as amended (the "1940 Act"). "Government money market funds" are required to invest at least 99.5% of their total assets in: (i) cash; (ii) securities issued or guaranteed by the United States or certain U.S. government agencies or instrumentalities; and/or (iii) repurchase agreements that are collateralized fully. Government money market funds are not required to adopt a liquidity fee framework.

Under normal conditions, the Fund will invest its assets so that at least 80% of its net assets (plus any borrowings for investment purposes) are invested in government securities and/or repurchase agreements that are collateralized by government securities. The Fund will notify shareholders at least 60 days in advance of any change in this investment policy.

What are the Main Risks of Investing in the Fund?

All mutual funds take investment risks. Therefore, even though the Fund is a money market fund that seeks to maintain a stable NAV, it is possible to lose money by investing in the Fund. The primary factors that may negatively impact the Fund's ability to maintain a stable NAV, delay the payment of redemptions by the Fund, or reduce the Fund's daily dividends include:

- **Interest Rate Risk.** Prices of fixed-income securities generally fall when interest rates rise. Recent and potential future changes in monetary policy made by central banks and/or their governments are likely to affect the level of interest rates. Very low or negative interest rates magnify interest rate risk. During periods when interest rates are low or there are negative interest rates, the Fund's yield (and total return) also is likely to be lower or the Fund may be unable to maintain a positive return, or yield, or a stable NAV.
- **Issuer Credit Risk.** It is possible that interest or principal on securities will not be paid when due. Money market funds try to minimize this risk by purchasing higher-quality securities.
- **Counterparty Credit Risk.** A party to a transaction involving the Fund may fail to meet its obligations. This could cause the Fund to lose money or to lose the benefit of the transaction or prevent the Fund from selling or buying other securities to implement its investment strategies.
- **Call Risk.** The Fund's performance may be adversely affected by the possibility that an issuer of a security held by the Fund may redeem the security prior to maturity at a price below its current market value.
- **Risk Associated with Investing Share Purchase Proceeds.** On days during which there are net purchases of Fund Shares, the Fund must invest the proceeds at prevailing market yields or hold cash. If the Fund holds cash, or if the yield of the securities purchased is less than that of the securities already in the portfolio, the Fund's yield will likely decrease. Conversely, net purchases on days on which short-term yields rise will likely cause the Fund's yield to increase. In the event of significant changes in short-term yields or significant net purchases, the Fund retains the discretion to close to new investments. However, the Fund is not required to close, and no assurance can be given that this will be done in any given circumstance.
- **Risk Associated with use of Amortized Cost.** In the unlikely event that the Fund's Board of Trustees ("Board") were to determine, pursuant to Rule 2a-7, that the extent of the deviation between the Fund's amortized cost per Share and its market-based NAV per Share may result in material dilution or other unfair results to shareholders, the Board will cause the Fund to take such action as it deems appropriate to eliminate or reduce to the extent practicable such dilution or unfair results.

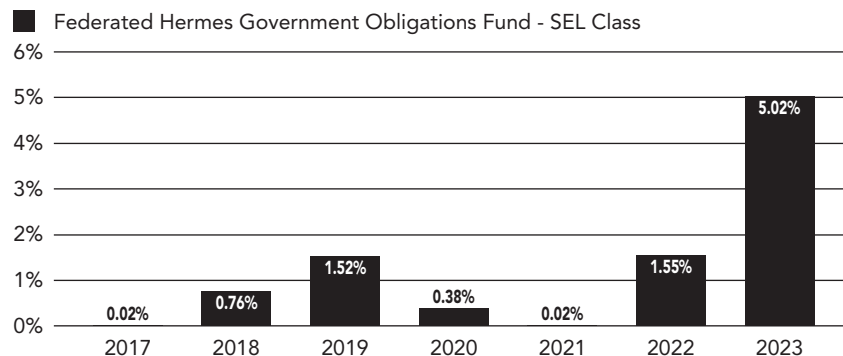

- **Additional Factors Affecting Yield.** There is no guarantee that the Fund will provide a certain level of income or that any such income will exceed the rate of inflation. Further, the Fund's yield will vary. Periods of very low or negative interest rates impact, in a negative way, the Fund's ability to maintain a positive return, or yield, or pay dividends to Fund shareholders.
- **Risk Related to the Economy.** The value of the Fund's portfolio may decline in tandem with a drop in the overall value of the markets in which the Fund invests and/or other markets. Economic, political and financial conditions, industry or economic trends and developments or public health risks, such as epidemics or pandemics, may, from time to time, and for varying periods of time, cause the Fund to experience volatility, illiquidity, shareholder redemptions or other potentially adverse effects.
- **Technology Risk.** The Adviser uses various technologies in managing the Fund, consistent with its investment objective(s) and strategy described in this Prospectus. For example, proprietary and third-party data and systems are utilized to support decision-making for the Fund. Data imprecision, software or other technology malfunctions, programming inaccuracies and similar circumstances may impair the performance of these systems, which may negatively affect Fund performance.

You could lose money by investing in the Fund. Although the Fund seeks to preserve the value of your investment at \$1.00 per share, it cannot guarantee it will do so. An investment in the Fund is not a bank account and is not insured or guaranteed by the Federal Deposit Insurance Corporation or any other government agency. The Fund's sponsor is not required to reimburse the Fund for losses, and you should not expect that the sponsor will provide financial support to the Fund at any time, including during periods of market stress.

RISK/RETURN SUMMARY: INVESTMENTS, RISKS AND PERFORMANCE

What are the Fund's Main Investment Strategies?

The Fund invests in a portfolio of U.S. Treasury and government securities maturing in 397 days or less and repurchase agreements collateralized fully by U.S. Treasury and government securities. The Fund may also hold cash. The Fund limits its investments to those that would enable it to qualify as a permissible investment for federally chartered credit unions as set forth in applicable federal banking regulations.

Certain of the government securities in which the Fund invests are not backed by the full faith and credit of the U.S. government, such as those issued by the Federal Home Loan Mortgage Corporation ("Freddie Mac"), the Federal National Mortgage Association ("Fannie Mae") and the Federal Home Loan Bank System. These entities are, however, supported through federal subsidies, loans or other benefits. The Fund may also invest in government securities that are supported by the full faith and credit of the U.S. government, such as those issued by the Government National Mortgage Association ("Ginnie Mae"). Finally, the Fund may invest in certain government securities that are issued by entities whose activities are sponsored by the federal government, but that have no explicit financial support.

In pursuing its investment objective and implementing its investment strategies, the Fund will comply with Rule 2a-7 under the Investment Company Act of 1940 ("Rule 2a-7").

The Fund will operate as a "government money market fund," as such term is defined in or interpreted under Rule 2a-7 under the Investment Company Act of 1940, as amended (the "1940 Act"). "Government money market funds" are required to invest at least 99.5% of their total assets in: (i) cash; (ii) securities issued or guaranteed by the United States or certain U.S. government agencies or instrumentalities; and/or (iii) repurchase agreements that are collateralized fully. Government money market funds are not required to adopt a liquidity fee framework.

Under normal conditions, the Fund will invest its assets so that at least 80% of its net assets (plus any borrowings for investment purposes) are invested in government securities and/or repurchase agreements that are collateralized by government securities. The Fund will notify shareholders at least 60 days in advance of any change in this investment policy.

What are the Main Risks of Investing in the Fund?

All mutual funds take investment risks. Therefore, even though the Fund is a money market fund that seeks to maintain a stable NAV, it is possible to lose money by investing in the Fund. The primary factors that may negatively impact the Fund's ability to maintain a stable NAV, delay the payment of redemptions by the Fund, or reduce the Fund's daily dividends include:

- **Interest Rate Risk.** Prices of fixed-income securities generally fall when interest rates rise. Recent and potential future changes in monetary policy made by central banks and/or their governments are likely to affect the level of interest rates. Very low or negative interest rates magnify interest rate risk. During periods when interest rates are low or there are negative interest rates, the Fund's yield (and total return) also is likely to be lower or the Fund may be unable to maintain a positive return, or yield, or a stable NAV.
- **Issuer Credit Risk.** It is possible that interest or principal on securities will not be paid when due. Money market funds try to minimize this risk by purchasing higher-quality securities.
- **Counterparty Credit Risk.** A party to a transaction involving the Fund may fail to meet its obligations. This could cause the Fund to lose money or to lose the benefit of the transaction or prevent the Fund from selling or buying other securities to implement its investment strategies.
- **Call Risk.** The Fund's performance may be adversely affected by the possibility that an issuer of a security held by the Fund may redeem the security prior to maturity at a price below its current market value.
- **Risk Associated with Investing Share Purchase Proceeds.** On days during which there are net purchases of Fund Shares, the Fund must invest the proceeds at prevailing market yields or hold cash. If the Fund holds cash, or if the yield of the securities purchased is less than that of the securities already in the portfolio, the Fund's yield will likely decrease. Conversely, net purchases on days on which short-term yields rise will likely cause the Fund's yield to increase. In the event of significant changes in short-term yields or significant net purchases, the Fund retains the discretion to close to new investments. However, the Fund is not required to close, and no assurance can be given that this will be done in any given circumstance.
- **Risk Associated with use of Amortized Cost.** In the unlikely event that the Fund's Board of Trustees ("Board") were to determine, pursuant to Rule 2a-7, that the extent of the deviation between the Fund's amortized cost per Share and its market-based NAV per Share may result in material dilution or other unfair results to shareholders, the Board will cause the Fund to take such action as it deems appropriate to eliminate or reduce to the extent practicable such dilution or unfair results.

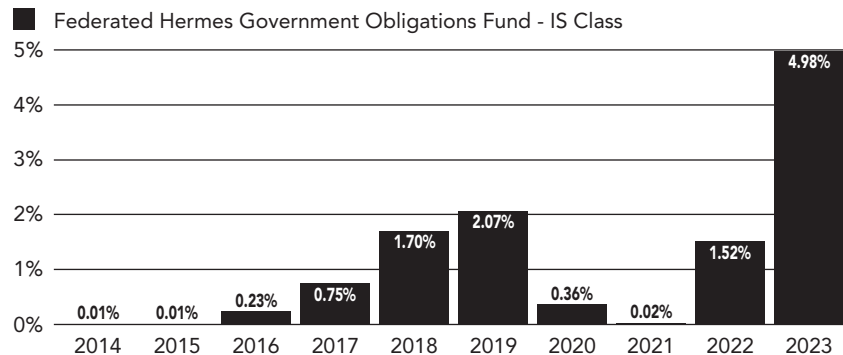

- **Additional Factors Affecting Yield.** There is no guarantee that the Fund will provide a certain level of income or that any such income will exceed the rate of inflation. Further, the Fund's yield will vary. Periods of very low or negative interest rates impact, in a negative way, the Fund's ability to maintain a positive return, or yield, or pay dividends to Fund shareholders.
- **Risk Related to the Economy.** The value of the Fund's portfolio may decline in tandem with a drop in the overall value of the markets in which the Fund invests and/or other markets. Economic, political and financial conditions, industry or economic trends and developments or public health risks, such as epidemics or pandemics, may, from time to time, and for varying periods of time, cause the Fund to experience volatility, illiquidity, shareholder redemptions or other potentially adverse effects.
- **Technology Risk.** The Adviser uses various technologies in managing the Fund, consistent with its investment objective(s) and strategy described in this Prospectus. For example, proprietary and third-party data and systems are utilized to support decision-making for the Fund. Data imprecision, software or other technology malfunctions, programming inaccuracies and similar circumstances may impair the performance of these systems, which may negatively affect Fund performance.

You could lose money by investing in the Fund. Although the Fund seeks to preserve the value of your investment at \$1.00 per share, it cannot guarantee it will do so. An investment in the Fund is not a bank account and is not insured or guaranteed by the Federal Deposit Insurance Corporation or any other government agency. The Fund's sponsor is not required to reimburse the Fund for losses, and you should not expect that the sponsor will provide financial support to the Fund at any time, including during periods of market stress.

Example

This Example is intended to help you compare the cost of investing in the Fund with the cost of investing in other mutual funds.

The Example assumes that you invest \$10,000 for the time periods indicated and then redeem or hold all of your Shares at the end of those periods. The Example also assumes that your investment has a 5% return each year and that operating expenses remain the same. The Example does not reflect sales charges (loads) on reinvested dividends. If these sales charges (loads) were included, your costs would be higher. Although your actual costs and returns may be higher or lower, based on these assumptions your costs would be:

1 Year	\$ 55
3 Years	\$173
5 Years	\$302
10 Years	\$677

RISK/RETURN SUMMARY: INVESTMENTS, RISKS AND PERFORMANCE

What are the Fund's Main Investment Strategies?

The Fund invests in a portfolio of U.S. Treasury and government securities maturing in 397 days or less and repurchase agreements collateralized fully by U.S. Treasury and government securities. The Fund may also hold cash. The Fund limits its investments to those that would enable it to qualify as a permissible investment for federally chartered credit unions as set forth in applicable federal banking regulations.

Certain of the government securities in which the Fund invests are not backed by the full faith and credit of the U.S. government, such as those issued by the Federal Home Loan Mortgage Corporation ("Freddie Mac"), the Federal National Mortgage Association ("Fannie Mae") and the Federal Home Loan Bank System. These entities are, however, supported through federal subsidies, loans or other benefits. The Fund may also invest in government securities that are supported by the full faith and credit of the U.S. government, such as those issued by the Government National Mortgage Association ("Ginnie Mae"). Finally, the Fund may invest in certain government securities that are issued by entities whose activities are sponsored by the federal government, but that have no explicit financial support.

In pursuing its investment objective and implementing its investment strategies, the Fund will comply with Rule 2a-7 under the Investment Company Act of 1940 ("Rule 2a-7").

The Fund will operate as a "government money market fund," as such term is defined in or interpreted under Rule 2a-7 under the Investment Company Act of 1940, as amended (the "1940 Act"). "Government money market funds" are required to invest at least 99.5% of their total assets in: (i) cash; (ii) securities issued or guaranteed by the United States or certain U.S. government agencies or instrumentalities; and/or (iii) repurchase agreements that are collateralized fully. Government money market funds are not required to adopt a liquidity fee framework.

Under normal conditions, the Fund will invest its assets so that at least 80% of its net assets (plus any borrowings for investment purposes) are invested in government securities and/or repurchase agreements that are collateralized by government securities. The Fund will notify shareholders at least 60 days in advance of any change in this investment policy.

What are the Main Risks of Investing in the Fund?

All mutual funds take investment risks. Therefore, even though the Fund is a money market fund that seeks to maintain a stable NAV, it is possible to lose money by investing in the Fund. The primary factors that may negatively impact the Fund's ability to maintain a stable NAV, delay the payment of redemptions by the Fund, or reduce the Fund's daily dividends include:

- **Interest Rate Risk.** Prices of fixed-income securities generally fall when interest rates rise. Recent and potential future changes in monetary policy made by central banks and/or their governments are likely to affect the level of interest rates. Very low or negative interest rates magnify interest rate risk. During periods when interest rates are low or there are negative interest rates, the Fund's yield (and total return) also is likely to be lower or the Fund may be unable to maintain a positive return, or yield, or a stable NAV.
- **Issuer Credit Risk.** It is possible that interest or principal on securities will not be paid when due. Money market funds try to minimize this risk by purchasing higher-quality securities.
- **Counterparty Credit Risk.** A party to a transaction involving the Fund may fail to meet its obligations. This could cause the Fund to lose money or to lose the benefit of the transaction or prevent the Fund from selling or buying other securities to implement its investment strategies.
- **Call Risk.** The Fund's performance may be adversely affected by the possibility that an issuer of a security held by the Fund may redeem the security prior to maturity at a price below its current market value.
- **Risk Associated with Investing Share Purchase Proceeds.** On days during which there are net purchases of Fund Shares, the Fund must invest the proceeds at prevailing market yields or hold cash. If the Fund holds cash, or if the yield of the securities purchased is less than that of the securities already in the portfolio, the Fund's yield will likely decrease. Conversely, net purchases on days on which short-term yields rise will likely cause the Fund's yield to increase. In the event of significant changes in short-term yields or significant net purchases, the Fund retains the discretion to close to new investments. However, the Fund is not required to close, and no assurance can be given that this will be done in any given circumstance.
- **Risk Associated with use of Amortized Cost.** In the unlikely event that the Fund's Board of Trustees ("Board") were to determine, pursuant to Rule 2a-7, that the extent of the deviation between the Fund's amortized cost per Share and its market-based NAV per Share may result in material dilution or other unfair results to shareholders, the Board will cause the Fund to take such action as it deems appropriate to eliminate or reduce to the extent practicable such dilution or unfair results.

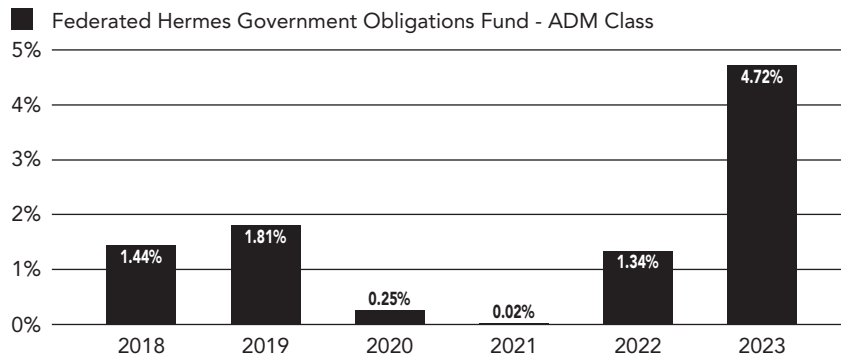

- **Additional Factors Affecting Yield.** There is no guarantee that the Fund will provide a certain level of income or that any such income will exceed the rate of inflation. Further, the Fund's yield will vary. Periods of very low or negative interest rates impact, in a negative way, the Fund's ability to maintain a positive return, or yield, or pay dividends to Fund shareholders.
- **Risk Related to the Economy.** The value of the Fund's portfolio may decline in tandem with a drop in the overall value of the markets in which the Fund invests and/or other markets. Economic, political and financial conditions, industry or economic trends and developments or public health risks, such as epidemics or pandemics, may, from time to time, and for varying periods of time, cause the Fund to experience volatility, illiquidity, shareholder redemptions or other potentially adverse effects.
- **Technology Risk.** The Adviser uses various technologies in managing the Fund, consistent with its investment objective(s) and strategy described in this Prospectus. For example, proprietary and third-party data and systems are utilized to support decision-making for the Fund. Data imprecision, software or other technology malfunctions, programming inaccuracies and similar circumstances may impair the performance of these systems, which may negatively affect Fund performance.

You could lose money by investing in the Fund. Although the Fund seeks to preserve the value of your investment at \$1.00 per share, it cannot guarantee it will do so. An investment in the Fund is not a bank account and is not insured or guaranteed by the Federal Deposit Insurance Corporation or any other government agency. The Fund's sponsor is not required to reimburse the Fund for losses, and you should not expect that the sponsor will provide financial support to the Fund at any time, including during periods of market stress.

What are the Main Risks of Investing in the Fund?

All mutual funds take investment risks. Therefore, even though the Fund is a money market fund that seeks to maintain a stable NAV, it is possible to lose money by investing in the Fund. The primary factors that may negatively impact the Fund's ability to maintain a stable NAV, delay the payment of redemptions by the Fund, or reduce the Fund's daily dividends include:

Recent and potential future changes in monetary policy made by central banks and/or their governments are likely to affect the level of interest rates. Very low or negative interest rates magnify interest rate risk. During periods when interest rates are low or there are negative interest rates, the Fund's yield (and total return) also is likely to be lower or the Fund may be unable to maintain a positive return, or yield, or a stable NAV.
- **Issuer Credit Risk.** It is possible that interest or principal on securities will not be paid when due. Money market funds try to minimize this risk by purchasing higher-quality securities.
- **Counterparty Credit Risk.** A party to a transaction involving the Fund may fail to meet its obligations. This could cause the Fund to lose money or to lose the benefit of the transaction or prevent the Fund from selling or buying other securities to implement its investment strategies.

- **Risk Associated with Investing Share Purchase Proceeds.** On days during which there are net purchases of Fund Shares, the Fund must invest the proceeds at prevailing market yields or hold cash. If the Fund holds cash, or if the yield of the securities purchased is less than that of the securities already in the portfolio, the Fund's yield will likely decrease. Conversely, net purchases on days on which short-term yields rise will likely cause the Fund's yield to increase. In the event of significant changes in short-term yields or significant net purchases, the Fund retains the discretion to close to new investments. However, the Fund is not required to close, and no assurance can be given that this will be done in any given circumstance.
- **Risk Associated with use of Amortized Cost.** In the unlikely event that the Fund's Board of Trustees ("Board") were to determine, pursuant to Rule 2a-7, that the extent of the deviation between the Fund's amortized cost per Share and its market-based NAV per Share may result in material dilution or other unfair results to shareholders, the Board will cause the Fund to take such action as it deems appropriate to eliminate or reduce to the extent practicable such dilution or unfair results.

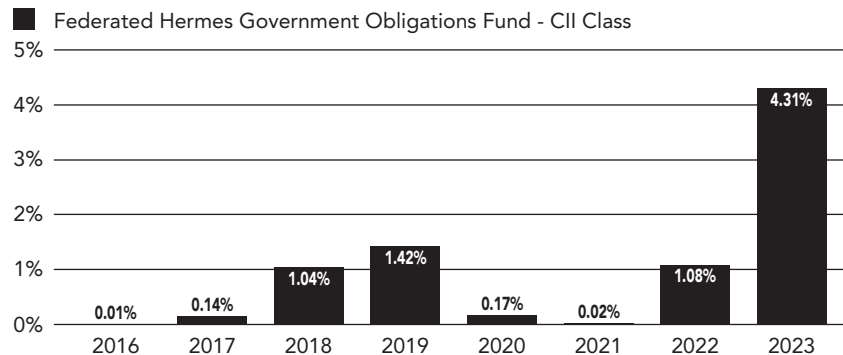

- **Additional Factors Affecting Yield.** There is no guarantee that the Fund will provide a certain level of income or that any such income will exceed the rate of inflation. Further, the Fund's yield will vary. Periods of very low or negative interest rates impact, in a negative way, the Fund's ability to maintain a positive return, or yield, or pay dividends to Fund shareholders.
- **Risk Related to the Economy.** The value of the Fund's portfolio may decline in tandem with a drop in the overall value of the markets in which the Fund invests and/or other markets. Economic, political and financial conditions, industry or economic trends and developments or public health risks, such as epidemics or pandemics, may, from time to time, and for varying periods of time, cause the Fund to experience volatility, illiquidity, shareholder redemptions or other potentially adverse effects.
- **Technology Risk.** The Adviser uses various technologies in managing the Fund, consistent with its investment objective(s) and strategy described in this Prospectus. For example, proprietary and third-party data and systems are utilized to support decision-making for the Fund. Data imprecision, software or other technology malfunctions, programming inaccuracies and similar circumstances may impair the performance of these systems, which may negatively affect Fund performance.

You could lose money by investing in the Fund. Although the Fund seeks to preserve the value of your investment at \$1.00 per share, it cannot guarantee it will do so. An investment in the Fund is not a bank account and is not insured or guaranteed by the Federal Deposit Insurance Corporation or any other government agency. The Fund's sponsor is not required to reimburse the Fund for losses, and you should not expect that the sponsor will provide financial support to the Fund at any time, including during periods of market stress.

RISK/RETURN SUMMARY: INVESTMENTS, RISKS AND PERFORMANCE

What are the Fund's Main Investment Strategies?

The Fund invests in a portfolio of U.S. Treasury and government securities maturing in 397 days or less and repurchase agreements collateralized fully by U.S. Treasury and government securities. The Fund may also hold cash. The Fund limits its investments to those that would enable it to qualify as a permissible investment for federally chartered credit unions as set forth in applicable federal banking regulations.

Certain of the government securities in which the Fund invests are not backed by the full faith and credit of the U.S. government, such as those issued by the Federal Home Loan Mortgage Corporation ("Freddie Mac"), the Federal National Mortgage Association ("Fannie Mae") and the Federal Home Loan Bank System. These entities are, however, supported through federal subsidies, loans or other benefits. The Fund may also invest in government securities that are supported by the full faith and credit of the U.S. government, such as those issued by the Government National Mortgage Association ("Ginnie Mae"). Finally, the Fund may invest in certain government securities that are issued by entities whose activities are sponsored by the federal government, but that have no explicit financial support.

In pursuing its investment objective and implementing its investment strategies, the Fund will comply with Rule 2a-7 under the Investment Company Act of 1940 ("Rule 2a-7").

The Fund will operate as a "government money market fund," as such term is defined in or interpreted under Rule 2a-7 under the Investment Company Act of 1940, as amended (the "1940 Act"). "Government money market funds" are required to invest at least 99.5% of their total assets in: (i) cash; (ii) securities issued or guaranteed by the United States or certain U.S. government agencies or instrumentalities; and/or (iii) repurchase agreements that are collateralized fully. Government money market funds are not required to adopt a liquidity fee framework.

Under normal conditions, the Fund will invest its assets so that at least 80% of its net assets (plus any borrowings for investment purposes) are invested in government securities and/or repurchase agreements that are collateralized by government securities. The Fund will notify shareholders at least 60 days in advance of any change in this investment policy.

What are the Main Risks of Investing in the Fund?

All mutual funds take investment risks. Therefore, even though the Fund is a money market fund that seeks to maintain a stable NAV, it is possible to lose money by investing in the Fund. The primary factors that may negatively impact the Fund's ability to maintain a stable NAV, delay the payment of redemptions by the Fund, or reduce the Fund's daily dividends include:

- **Interest Rate Risk.** Prices of fixed-income securities generally fall when interest rates rise. Recent and potential future changes in monetary policy made by central banks and/or their governments are likely to affect the level of interest rates. Very low or negative interest rates magnify interest rate risk. During periods when interest rates are low or there are negative interest rates, the Fund's yield (and total return) also is likely to be lower or the Fund may be unable to maintain a positive return, or yield, or a stable NAV.
- **Issuer Credit Risk.** It is possible that interest or principal on securities will not be paid when due. Money market funds try to minimize this risk by purchasing higher-quality securities.
- **Counterparty Credit Risk.** A party to a transaction involving the Fund may fail to meet its obligations. This could cause the Fund to lose money or to lose the benefit of the transaction or prevent the Fund from selling or buying other securities to implement its investment strategies.
- **Call Risk.** The Fund's performance may be adversely affected by the possibility that an issuer of a security held by the Fund may redeem the security prior to maturity at a price below its current market value.
- **Risk Associated with Investing Share Purchase Proceeds.** On days during which there are net purchases of Fund Shares, the Fund must invest the proceeds at prevailing market yields or hold cash. If the Fund holds cash, or if the yield of the securities purchased is less than that of the securities already in the portfolio, the Fund's yield will likely decrease. Conversely, net purchases on days on which short-term yields rise will likely cause the Fund's yield to increase. In the event of significant changes in short-term yields or significant net purchases, the Fund retains the discretion to close to new investments. However, the Fund is not required to close, and no assurance can be given that this will be done in any given circumstance.
- **Risk Associated with use of Amortized Cost.** In the unlikely event that the Fund's Board of Trustees ("Board") were to determine, pursuant to Rule 2a-7, that the extent of the deviation between the Fund's amortized cost per Share and its market-based NAV per Share may result in material dilution or other unfair results to shareholders, the Board will cause the Fund to take such action as it deems appropriate to eliminate or reduce to the extent practicable such dilution or unfair results.

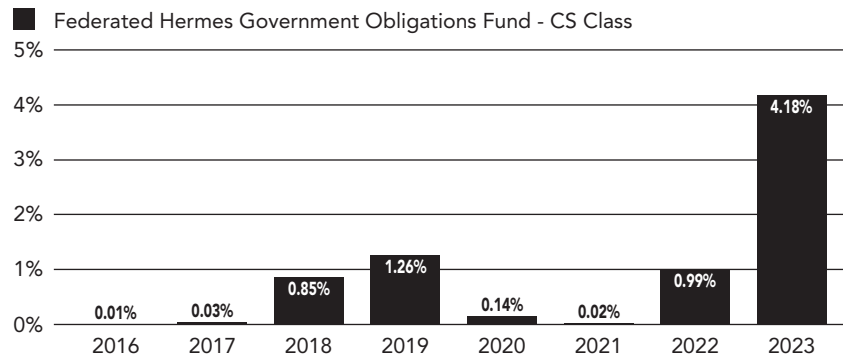

- **Additional Factors Affecting Yield.** There is no guarantee that the Fund will provide a certain level of income or that any such income will exceed the rate of inflation. Further, the Fund's yield will vary. Periods of very low or negative interest rates impact, in a negative way, the Fund's ability to maintain a positive return, or yield, or pay dividends to Fund shareholders.
- **Risk Related to the Economy.** The value of the Fund's portfolio may decline in tandem with a drop in the overall value of the markets in which the Fund invests and/or other markets. Economic, political and financial conditions, industry or economic trends and developments or public health risks, such as epidemics or pandemics, may, from time to time, and for varying periods of time, cause the Fund to experience volatility, illiquidity, shareholder redemptions or other potentially adverse effects.
- **Technology Risk.** The Adviser uses various technologies in managing the Fund, consistent with its investment objective(s) and strategy described in this Prospectus. For example, proprietary and third-party data and systems are utilized to support decision-making for the Fund. Data imprecision, software or other technology malfunctions, programming inaccuracies and similar circumstances may impair the performance of these systems, which may negatively affect Fund performance.

You could lose money by investing in the Fund. Although the Fund seeks to preserve the value of your investment at \$1.00 per share, it cannot guarantee it will do so. An investment in the Fund is not a bank account and is not insured or guaranteed by the Federal Deposit Insurance Corporation or any other government agency. The Fund's sponsor is not required to reimburse the Fund for losses, and you should not expect that the sponsor will provide financial support to the Fund at any time, including during periods of market stress.

Example

This Example is intended to help you compare the cost of investing in the Fund with the cost of investing in other mutual funds.

The Example assumes that you invest \$10,000 for the time periods indicated and then redeem or hold all of your Shares at the end of those periods. RISK/RETURN SUMMARY: INVESTMENTS, RISKS AND PERFORMANCE

What are the Fund's Main Investment Strategies?

The Fund invests in a portfolio of U.S. Treasury and government securities maturing in 397 days or less and repurchase agreements collateralized fully by U.S. Treasury and government securities. The Fund may also hold cash. The Fund limits its investments to those that would enable it to qualify as a permissible investment for federally chartered credit unions as set forth in applicable federal banking regulations.

Certain of the government securities in which the Fund invests are not backed by the full faith and credit of the U.S. government, such as those issued by the Federal Home Loan Mortgage Corporation ("Freddie Mac"), the Federal National Mortgage Association ("Fannie Mae") and the Federal Home Loan Bank System. These entities are, however, supported through federal subsidies, loans or other benefits. The Fund may also invest in government securities that are supported by the full faith and credit of the U.S. government, such as those issued by the Government National Mortgage Association ("Ginnie Mae"). Finally, the Fund may invest in certain government securities that are issued by entities whose activities are sponsored by the federal government, but that have no explicit financial support.

In pursuing its investment objective and implementing its investment strategies, the Fund will comply with Rule 2a-7 under the Investment Company Act of 1940 ("Rule 2a-7").

The Fund will operate as a "government money market fund," as such term is defined in or interpreted under Rule 2a-7 under the Investment Company Act of 1940, as amended (the "1940 Act"). "Government money market funds" are required to invest at least 99.5% of their total assets in: (i) cash; (ii) securities issued or guaranteed by the United States or certain U.S. government agencies or instrumentalities; and/or (iii) repurchase agreements that are collateralized fully. Government money market funds are not required to adopt a liquidity fee framework.

Under normal conditions, the Fund will invest its assets so that at least 80% of its net assets (plus any borrowings for investment purposes) are invested in government securities and/or repurchase agreements that are collateralized by government securities. The Fund will notify shareholders at least 60 days in advance of any change in this investment policy.

What are the Main Risks of Investing in the Fund?

All mutual funds take investment risks. Therefore, even though the Fund is a money market fund that seeks to maintain a stable NAV, it is possible to lose money by investing in the Fund. The primary factors that may negatively impact the Fund's ability to maintain a stable NAV, delay the payment of redemptions by the Fund, or reduce the Fund's daily dividends include:

- **Interest Rate Risk.** Prices of fixed-income securities generally fall when interest rates rise. Recent and potential future changes in monetary policy made by central banks and/or their governments are likely to affect the level of interest rates. Very low or negative interest rates magnify interest rate risk. During periods when interest rates are low or there are negative interest rates, the Fund's yield (and total return) also is likely to be lower or the Fund may be unable to maintain a positive return, or yield, or a stable NAV.
- **Issuer Credit Risk.** It is possible that interest or principal on securities will not be paid when due. Money market funds try to minimize this risk by purchasing higher-quality securities.
- **Counterparty Credit Risk.** A party to a transaction involving the Fund may fail to meet its obligations. This could cause the Fund to lose money or to lose the benefit of the transaction or prevent the Fund from selling or buying other securities to implement its investment strategies.
- **Call Risk.** The Fund's performance may be adversely affected by the possibility that an issuer of a security held by the Fund may redeem the security prior to maturity at a price below its current market value.
- **Risk Associated with Investing Share Purchase Proceeds.** On days during which there are net purchases of Fund Shares, the Fund must invest the proceeds at prevailing market yields or hold cash. If the Fund holds cash, or if the yield of the securities purchased is less than that of the securities already in the portfolio, the Fund's yield will likely decrease. Conversely, net purchases on days on which short-term yields rise will likely cause the Fund's yield to increase. In the event of significant changes in short-term yields or significant net purchases, the Fund retains the discretion to close to new investments. However, the Fund is not required to close, and no assurance can be given that this will be done in any given circumstance.
- **Risk Associated with use of Amortized Cost.** In the unlikely event that the Fund's Board of Trustees ("Board") were to determine, pursuant to Rule 2a-7, that the extent of the deviation between the Fund's amortized cost per Share and its market-based NAV per Share may result in material dilution or other unfair results to shareholders, the Board will cause the Fund to take such action as it deems appropriate to eliminate or reduce to the extent practicable such dilution or unfair results.

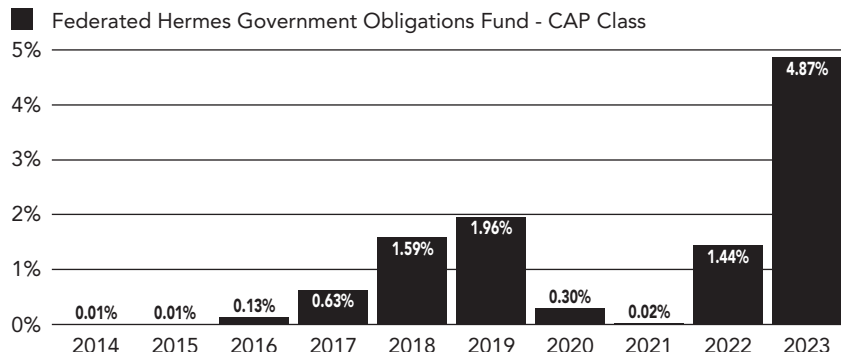

- **Additional Factors Affecting Yield.** There is no guarantee that the Fund will provide a certain level of income or that any such income will exceed the rate of inflation. Further, the Fund's yield will vary. Periods of very low or negative interest rates impact, in a negative way, the Fund's ability to maintain a positive return, or yield, or pay dividends to Fund shareholders.
- **Risk Related to the Economy.** The value of the Fund's portfolio may decline in tandem with a drop in the overall value of the markets in which the Fund invests and/or other markets. Economic, political and financial conditions, industry or economic trends and developments or public health risks, such as epidemics or pandemics, may, from time to time, and for varying periods of time, cause the Fund to experience volatility, illiquidity, shareholder redemptions or other potentially adverse effects.
- **Technology Risk.** The Adviser uses various technologies in managing the Fund, consistent with its investment objective(s) and strategy described in this Prospectus. For example, proprietary and third-party data and systems are utilized to support decision-making for the Fund. Data imprecision, software or other technology malfunctions, programming inaccuracies and similar circumstances may impair the performance of these systems, which may negatively affect Fund performance.

You could lose money by investing in the Fund. Although the Fund seeks to preserve the value of your investment at \$1.00 per share, it cannot guarantee it will do so. An investment in the Fund is not a bank account and is not insured or guaranteed by the Federal Deposit Insurance Corporation or any other government agency. The Fund's sponsor is not required to reimburse the Fund for losses, and you should not expect that the sponsor will provide financial support to the Fund at any time, including during periods of market stress.

What are the Main Risks of Investing in the Fund?

All mutual funds take investment risks. Therefore, even though the Fund is a money market fund that seeks to maintain a stable NAV, it is possible to lose money by investing in the Fund. The primary factors that may negatively impact the Fund's ability to maintain a stable NAV, delay the payment of redemptions by the Fund, or reduce the Fund's daily dividends include:

Recent and potential future changes in monetary policy made by central banks and/or their governments are likely to affect the level of interest rates. Very low or negative interest rates magnify interest rate risk. During periods when interest rates are low or there are negative interest rates, the Fund's yield (and total return) also is likely to be lower or the Fund may be unable to maintain a positive return, or yield, or a stable NAV.
- **Issuer Credit Risk.** It is possible that interest or principal on securities will not be paid when due. Money market funds try to minimize this risk by purchasing higher-quality securities.
- **Counterparty Credit Risk.** A party to a transaction involving the Fund may fail to meet its obligations. This could cause the Fund to lose money or to lose the benefit of the transaction or prevent the Fund from selling or buying other securities to implement its investment strategies.
- **Call Risk.** The Fund's performance may be adversely affected by the possibility that an issuer of a security held by the Fund may redeem the security prior to maturity at a price below its current market value.
- **Risk Associated with Investing Share Purchase Proceeds.** On days during which there are net purchases of Fund Shares, the Fund must invest the proceeds at prevailing market yields or hold cash. If the Fund holds cash, or if the yield of the securities purchased is less than that of the securities already in the portfolio, the Fund's yield will likely decrease. Conversely, net purchases on days on which short-term yields rise will likely cause the Fund's yield to increase. In the event of significant changes in short-term yields or significant net purchases, the Fund retains the discretion to close to new investments. However, the Fund is not required to close, and no assurance can be given that this will be done in any given circumstance.
- **Risk Associated with use of Amortized Cost.** In the unlikely event that the Fund's Board of Trustees ("Board") were to determine, pursuant to Rule 2a-7, that the extent of the deviation between the Fund's amortized cost per Share and its market-based NAV per Share may result in material dilution or other unfair results to shareholders, the Board will cause the Fund to take such action as it deems appropriate to eliminate or reduce to the extent practicable such dilution or unfair results.

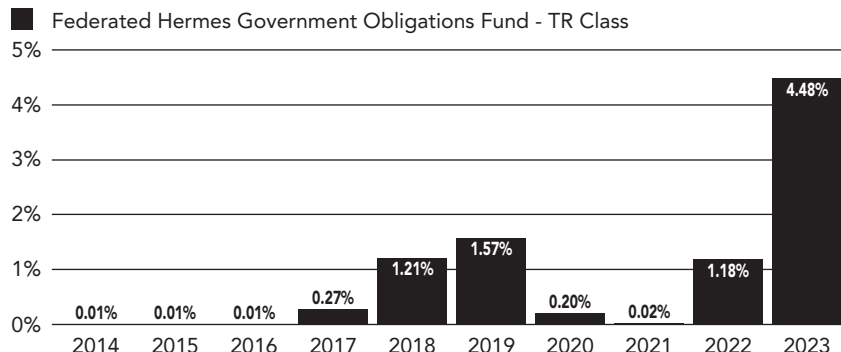

- **Additional Factors Affecting Yield.** There is no guarantee that the Fund will provide a certain level of income or that any such income will exceed the rate of inflation. Further, the Fund's yield will vary. Periods of very low or negative interest rates impact, in a negative way, the Fund's ability to maintain a positive return, or yield, or pay dividends to Fund shareholders.
- **Risk Related to the Economy.** The value of the Fund's portfolio may decline in tandem with a drop in the overall value of the markets in which the Fund invests and/or other markets. Economic, political and financial conditions, industry or economic trends and developments or public health risks, such as epidemics or pandemics, may, from time to time, and for varying periods of time, cause the Fund to experience volatility, illiquidity, shareholder redemptions or other potentially adverse effects.
- **Technology Risk.** The Adviser uses various technologies in managing the Fund, consistent with its investment objective(s) and strategy described in this Prospectus. For example, proprietary and third-party data and systems are utilized to support decision-making for the Fund. Data imprecision, software or other technology malfunctions, programming inaccuracies and similar circumstances may impair the performance of these systems, which may negatively affect Fund performance.

You could lose money by investing in the Fund. Although the Fund seeks to preserve the value of your investment at \$1.00 per share, it cannot guarantee it will do so. An investment in the Fund is not a bank account and is not insured or guaranteed by the Federal Deposit Insurance Corporation or any other government agency. The Fund's sponsor is not required to reimburse the Fund for losses, and you should not expect that the sponsor will provide financial support to the Fund at any time, including during periods of market stress.

Ask your salesperson or visit your financial intermediary's website for more information.

What are the Fund's Investment Strategies?

The Fund's investment objective is to provide current income consistent with stability of principal. While there is no assurance that the Fund will achieve its investment objective, it endeavors to do so by following the strategies and policies described in this Prospectus.

The Fund invests in a portfolio of U.S. Treasury and government securities maturing in 397 days or less and repurchase agreements collateralized fully by U.S. Treasury and government securities. The Fund may also hold cash. The Fund limits its investments to those that would enable it to qualify as a permissible investment for federally chartered credit unions as set forth in applicable federal banking regulations.

The Adviser targets a dollar-weighted average portfolio maturity (WAM) range based upon its interest rate outlook. The Adviser formulates its interest rate outlook by analyzing a variety of factors, such as:

- current U.S. economic activity and the economic outlook;
- current short-term interest rates;
- the Federal Reserve Board's policies regarding short-term interest rates; and
- the potential effects of foreign economic activity on U.S. short-term interest rates.

The Adviser generally shortens the portfolio's WAM when it expects interest rates to rise and extends the WAM when it expects interest rates to fall. This strategy seeks to enhance the returns from favorable interest rate changes and reduce the effect of unfavorable changes. The Adviser selects securities used to shorten or extend the portfolio's WAM by comparing the returns currently offered by different investments to their historical and expected returns.

The Fund will: (1) maintain a WAM of 60 days or less; and (2) maintain a weighted average life (WAL) of 120 days or less. Certain of the securities in which the Fund invests may pay interest at a rate that is periodically adjusted ("Adjustable Rate Securities"). For purposes of calculating WAM, the maturity of an Adjustable Rate Security generally will be the period remaining until its next interest rate adjustment. For purposes of calculating WAL, the maturity of an Adjustable Rate Security will be its stated final maturity, without regard to interest rate adjustments; accordingly, the 120-day WAL limitation could serve to limit the Fund's ability to invest in Adjustable Rate Securities.

The Fund will operate as a "government money market fund," as such term is defined in or interpreted under Rule 2a-7 under the 1940 Act, as amended. "Government money market funds" are required to invest at least 99.5% of their total assets in: (i) cash; (ii) securities issued or guaranteed by the United States or certain U.S. government agencies or instrumentalities; and/or (iii) repurchase agreements that are collateralized fully. Government money market funds are not required to adopt a liquidity fee framework.

Under normal conditions, the Fund will invest its assets so that at least 80% of its net assets (plus any borrowings for investment purposes) are invested in government securities and/or repurchase agreements that are collateralized by government securities. The Fund will notify shareholders at least 60 days in advance of any change in this investment policy.

TEMPORARY CASH POSITIONS

The Fund may temporarily depart from its principal investment strategies by holding cash. It may do this in response to unusual circumstances, such as: adverse market, economic or other conditions (for example, during periods when there is a shortage of appropriate securities); to maintain liquidity to meet shareholder redemptions; or to accommodate cash inflows. Such temporary cash positions could affect the Fund's investment returns and/or the Fund's ability to achieve its investment objective.

What are the Fund's Principal Investments?

The following provides general information on the Fund's principal investments. The Fund's Statement of Additional Information (SAI) provides information about the Fund's non-principal investments and may provide additional information about the Fund's principal investments.

FIXED-INCOME SECURITIES

Fixed-income securities pay interest, dividends or distributions at a specified rate. The rate may be a fixed percentage of the principal or may be adjusted periodically. In addition, the issuer of a fixed-income security must repay the principal amount of the security, normally within a specified time. Fixed-income securities provide more regular income than equity securities. However, the returns on fixed-income securities are limited and normally do not increase with the issuer's earnings. This limits the potential appreciation of fixed-income securities as compared to equity securities.

A security's yield measures the annual income earned on a security as a percentage of its price. A security's yield will increase or decrease depending upon whether it costs less (a "discount") or more (a "premium") than the principal amount. If the issuer may redeem the security before its scheduled maturity, the price and yield on a discount or premium security may change based upon the probability of an early redemption. Securities with higher risks generally have higher yields.

The following describes the types of fixed-income securities in which the Fund principally invests:

U.S. Treasury Securities (A Type of Fixed-Income Security)

U.S. Treasury securities are direct obligations of the federal government of the United States.

Government Securities (A Type of Fixed-Income Security)

Government securities are issued or guaranteed by a federal agency or instrumentality acting under federal authority. Some government securities, including those issued by Ginnie Mae, are supported by the full faith and credit of the United States and are guaranteed only as to the timely payment of interest and principal.

Other government securities receive support through federal subsidies, loans or other benefits, but are not backed by the full faith and credit of the United States. For example, the U.S. Treasury is authorized to purchase specified amounts of securities issued by (or otherwise make funds available to) the Federal Home Loan Bank System, Freddie Mac and Fannie Mae in support of such obligations.

Some government agency securities have no explicit financial support, and are supported only by the credit of the applicable agency, instrumentality or corporation. The U.S. government has provided financial support to Freddie Mac and Fannie Mae, but there is no assurance that it will support these or other agencies in the future.

Callable Securities (A Type of Fixed-Income Security)

Certain U.S. Treasury or government securities in which the Fund invests are callable at the option of the issuer. Callable securities are subject to call risks.

OTHER INVESTMENTS, TRANSACTIONS, TECHNIQUES

Additional Information Regarding the Security Selection Process

As part of analysis in its security selection process, among other factors, the Adviser also evaluates whether environmental, social and governance factors could have a positive or negative impact on the risk profiles of many issuers or guarantors in the universe of securities in which the Fund may invest. The Adviser may also consider information derived from active engagements conducted by its in-house stewardship team with certain issuers or guarantors on environmental, social and governance topics. This qualitative analysis does not automatically result in including or excluding specific securities but may be used by Federated Hermes as an additional input in its primary analysis.

Repurchase Agreements

Repurchase agreements are transactions in which the Fund buys a security from a dealer or bank and agrees to sell the security back at a mutually agreed-upon time and price. The repurchase price exceeds the sale price, reflecting the Fund's return on the transaction. This return is unrelated to the interest rate on the underlying security. The Fund will enter into repurchase agreements only with banks and other recognized financial institutions, such as securities dealers, deemed creditworthy by the Adviser.

The Fund's custodian or subcustodian will take possession of the securities subject to repurchase agreements. The Adviser or subcustodian will monitor the value of the underlying security each day to ensure that the value of the security always equals or exceeds the repurchase price.

Repurchase agreements are subject to credit risks.

What are the Specific Risks of Investing in the Fund?

The following provides general information on the risks associated with the Fund's principal investments. These are the primary factors that may negatively impact the Fund's ability to maintain a stable NAV, delay the payment of redemptions by the Fund or reduce the Fund's daily dividends. Any additional risks associated with the Fund's non-principal investments are described in the Fund's SAI. The Fund's SAI also may provide additional information about the risks associated with the Fund's principal investments.

INTEREST RATE RISK

Prices of fixed-income securities rise and fall in response to changes in interest rates. Generally, when interest rates rise, prices of fixed-income securities fall. However, market factors, such as the demand for particular fixed-income securities, may cause the price of certain fixed-income securities to fall while the prices of other securities rise or remain unchanged.

Recent and potential future changes in monetary policy made by central banks and/or their governments are likely to affect the level of interest rates. Money market funds try to minimize this risk by purchasing short-term securities. Negative or very low interest rates magnify the risks associated with changes in interest rates. In general, changing interest rates, including rates that fall below zero, have unpredictable effects on markets and expose debt and related markets to heightened volatility and may detract from Fund performance to the extent a Fund is exposed to such interest rates and/or volatility. During periods when interest rates are low or there are negative interest rates, a Fund's yield (and total return) also is likely to be low or otherwise adversely affected or the Fund may be unable to maintain a positive return, or yield, or minimize the volatility of the Fund's NAV per share or maintain a stable NAV.

ISSUER CREDIT RISK

It is possible that interest or principal on securities will not be paid when due. Money market funds try to minimize this risk by purchasing higher-quality securities.

Many fixed-income securities receive credit ratings from nationally recognized statistical rating organizations (NRSROs) such as Fitch Rating Service, Moody's Investor Services, Inc. and S&P Global Ratings, that assign ratings to securities by assessing the likelihood of an issuer and/or guarantor default. Higher credit ratings correspond to lower perceived credit risk and lower credit ratings correspond to higher perceived credit risk. Credit ratings may be upgraded or downgraded from time to time as an NRSRO's assessment of the financial condition of a party obligated to make payments with respect to such securities and credit risk changes. The impact of any credit rating downgrade can be uncertain. Credit rating downgrades may lead to increased interest rates and volatility in financial markets, which in turn could negatively affect the value of the Fund's portfolio holdings, its NAV and its investment performance. Credit ratings are not a guarantee of quality. Credit ratings may lag behind the current financial conditions of the issuer and/or guarantor and do not provide assurance against default or other loss of money. Credit ratings do not protect against a decline in the value of a security. If a security has not received a rating, the Fund must rely entirely upon the Adviser's credit assessment.

Fixed-income securities generally compensate for greater credit risk by paying interest at a higher rate. The difference between the yield of a security and the yield of a Treasury security or other appropriate benchmark with a comparable maturity (the "spread") measures the additional interest paid for risk. Spreads may increase generally in response to adverse economic or market conditions. A security's spread may also increase if the security's rating is lowered, or the security is perceived to have an increased credit risk. An increase in the spread will cause the price of the security to decline if interest rates remain unchanged.

COUNTERPARTY CREDIT RISK

A party to a transaction involving the Fund may fail to meet its obligations. This could cause the Fund to lose money or to lose the benefit of the transaction or prevent the Fund from selling or buying other securities to implement its investment strategies.

CALL RISK

Call risk is the possibility that an issuer may redeem a U.S. Treasury or government security before maturity (a "call") at a price below or above its current market price. An increase in the likelihood of a call may reduce the security's price.

If a U.S. Treasury or government security is called, the Fund may have to reinvest the proceeds in other fixed-income securities with lower interest rates, higher credit risks or other less favorable characteristics.

RISK ASSOCIATED WITH INVESTING SHARE PURCHASE PROCEEDS

On days during which there are net purchases of Fund Shares, the Fund must invest the proceeds at prevailing market yields or hold cash. If the Fund holds cash, or if the yield of the securities purchased is less than that of the securities already in the portfolio, the Fund's yield will likely decrease. Conversely, net purchases on days on which short-term yields rise will likely cause the Fund's yield to increase. The larger the amount that must be invested or the greater the difference between the yield of the securities purchased and the yield of the existing investments, the greater the impact will be on the yield of the Fund. In the event of significant changes in short-term yields or significant net purchases, the Fund retains the discretion to close to new investments. However, the Fund is not required to close, and no assurance can be given that this will be done in any given circumstance.

RISK ASSOCIATED WITH USE OF AMORTIZED COST

In the unlikely event that the Fund's Board of Trustees (the "Board") were to determine, pursuant to Rule 2a-7, that the extent of the deviation between the Fund's amortized cost per Share and its market-based NAV per Share may result in material dilution or other unfair results to shareholders, the Board will cause the Fund to take such action as it deems appropriate to eliminate or reduce, to the extent practicable, such dilution or unfair results, including, but not limited to, considering suspending redemption of Shares and liquidating the Fund under Rule 22e-3 under the Investment Company Act of 1940.

ADDITIONAL FACTORS AFFECTING YIELD

There is no guarantee that the Fund will provide a certain level of income or that any such income will exceed the rate of inflation. Further, the Fund's yield will vary. A low or negative interest rate environment may prevent the Fund from providing a positive return, or yield, or paying Fund expenses out of current income and could impair the Fund's ability to maintain a stable NAV. The Fund's yield could also be negatively affected (both in absolute terms and as compared to other money market funds) by aspects of its investment program (for example, its investment policies, strategies or limitations) or its operational policies (for example, its cut-off time for purchases and redemptions of Shares).

RISK RELATED TO THE ECONOMY

The value of the Fund's portfolio may decline in tandem with a drop in the overall value of the markets in which the Fund invests and/or other markets based on negative developments in the U.S. and global economies. Economic, political and financial conditions, industry or economic trends and developments or public health risks, such as epidemics or pandemics, may, from time to time, and for varying periods of time, cause volatility, illiquidity and/or other potentially adverse effects in the financial markets, including the fixed-income market. The commencement, continuation or ending of government policies and economic stimulus programs, changes in monetary policy, increases or decreases in interest rates, or other factors or events that affect the financial markets, including the fixed-income markets, may contribute to the development of or increase in volatility, illiquidity, shareholder redemptions and other adverse effects which could negatively impact the Fund's performance. For example, the value of certain portfolio securities may rise or fall in response to changes in interest rates, which could result from a change in government policies, and has the potential to cause investors to move out of certain portfolio securities, including fixed-income securities, on a large scale across the market. This may increase redemptions from funds that hold impacted securities. Such a market event could result in decreased liquidity and increased volatility in the financial markets. Market factors, such as the demand for particular portfolio securities, may cause the price of certain portfolio securities to fall while the prices of other securities rise or remain unchanged.

TECHNOLOGY RISK

The Adviser uses various technologies in managing the Fund, consistent with its investment objective(s) and strategy described in this Prospectus. For example, proprietary and third-party data and systems are utilized to support decision-making for the Fund. Data imprecision, software or other technology malfunctions, programming inaccuracies and similar circumstances may impair the performance of these systems, which may negatively affect Fund performance.

What Do Shares Cost?

CALCULATION OF NET ASSET VALUE

The Fund attempts to stabilize the NAV of its Shares at \$1.00 by valuing the portfolio securities using the amortized cost method. In addition, for regulatory purposes, the Fund calculates a market-based (or shadow) NAV per Share on a daily basis for purposes of confirming that its NAV continues to approximate fair value. For purposes of calculating the shadow NAV and monitoring its comparison to the amortized cost-based NAV, pursuant to Rule 2a-5 under the Investment Company Act, the Board has designated the Adviser as the Fund's valuation designee to perform any fair value determinations for securities and other assets held by the Fund. The Adviser, acting through its "Valuation Committee" is responsible for determining the fair value of investments in the shadow NAV for which market quotations are not readily available. The Valuation Committee is comprised of officers of the Adviser and certain of the Adviser's affiliated companies and determines fair value and oversees the calculation of the NAV. The Valuation Committee is subject to Board oversight and certain reporting and other requirements intended to provide the Board the information it needs to oversee the Adviser's fair value determinations. The Fund cannot guarantee that its NAV will always remain at \$1.00 per Share. The Fund does not charge a front-end sales charge.

You can purchase, redeem or exchange Shares any day the NYSE is open (a “Regular Business Day”). You may also be able to purchase and redeem (but not exchange) Shares on certain days that the NYSE is closed on an unscheduled basis due to unforeseen or emergency circumstances, if the Fund’s Board determines to allow Fund Share transactions on such days (a “Special Trading Day”). If the Fund declares a Special Trading Day, information regarding shareholder trading activities for the Special Trading Day (such as when NAV, and entitlement to that day’s dividend, will be determined) will be available by calling the Fund at 1-800-341-7400 and will be posted on FederatedHermes.com/us. **The information set forth in this Prospectus regarding times relevant to NAV determination and dividend entitlement applies only to Regular Business Days.** Please note that the times that might be specified for NAV determination and dividend entitlement on a Special Trading Day would not necessarily be the same as set forth in this Prospectus with respect to Regular Business Days. Although Federated Hermes will attempt to make such information available in advance of a particular Special Trading Day, given the nature of Special Trading Days, it may not be able to do so until the morning of the Special Trading Day.

When the Fund receives your transaction request in proper form (as described in this Prospectus under the sections entitled “How to Purchase Shares” and “How to Redeem and Exchange Shares”), it is processed at the next determined NAV. NAV is generally determined at 5:00 p.m. Eastern time each day the NYSE is open; except that on the day after Thanksgiving and Christmas Eve (when Christmas Eve falls on a weekday) NAV will be determined at 3:00 p.m. Eastern time. The times as of when NAV is determined, and when orders must be placed, may be changed as permitted by the SEC.

Because the Fund operates as a money market fund and seeks to maintain a stable \$1.00 price per share, a low or negative interest rate environment could impact the Fund’s ability to maintain a stable \$1.00 share price. If the Fund has a negative gross yield as a result of negative interest rates (a “negative interest rate event”), the Fund may reduce the number of shares outstanding on a pro rata basis through a reverse distribution mechanism (RDM) to seek to maintain a stable \$1.00 price per share, to the extent permissible by applicable law and the Fund’s organizational documents and subject to a determination by the Board that implementing an RDM is in the best interests of the Fund and its shareholders. Alternatively, if the Fund has a negative interest rate event and/or the Board determines that it is no longer in the best interests of the Fund and its shareholders to maintain a stable price of \$1.00 per share, the Board has the right to discontinue the use of a stable NAV of \$1.00 per share and establish a fluctuating NAV per share rounded to four decimal places. If the Fund uses an RDM, the Fund will maintain a stable price per share, despite losing value, by reducing the number of its outstanding shares. Investors in the Fund would observe a stable share price but a declining number of shares for their investment. If the Fund converts to a fluctuating NAV under these circumstances, the Fund’s losses will be reflected through a declining share price. The Fund will notify shareholders of any such change. Shareholders should discuss any tax implications of implementing an RDM or converting to a fluctuating NAV with their tax adviser.

Payments to Financial Intermediaries

The Fund and its affiliated service providers may pay fees as described below to financial intermediaries (such as broker-dealers, banks, investment advisers or third-party administrators) whose customers are shareholders of the Fund.

RULE 12b-1 FEES

ADM Class, CS Class, CII Class and TR Class

The Board has adopted a Rule 12b-1 Plan, which allows payment of marketing fees of up to 0.60% for CS class, 0.35% for CII class, 0.10% for ADM class and 0.25% for TR class of average net assets to the Distributor for the sale, distribution, administration and customer servicing of the Fund's CS class, CII class, ADM class and TR class. When the Distributor receives Rule 12b-1 Fees, it may pay some or all of them to financial intermediaries whose customers purchase Shares.

Because these Shares pay marketing fees on an ongoing basis, your investment cost may be higher over time than other shares with different sales charges and marketing fees.

The Fund's ADM class has no present intention of paying, accruing or incurring more than 0.05% of any such Rule 12b-1 Fees until such time as approved by the Fund's Board of Trustees.

SERVICE FEES

ADM Class, PRM Class, AVR Class, IS Class, SEL Class, SS Class, CII Class, CS Class, CAP Class & TR Class

The Fund may pay Service Fees of up to 0.25% of average net assets to financial intermediaries or to Federated Shareholder Services Company (FSSC), a subsidiary of Federated Hermes, for providing services to shareholders and maintaining shareholder accounts. Intermediaries that receive Service Fees may include a company affiliated with management of Federated Hermes. If a financial intermediary receives Service Fees on an account, it is not eligible to also receive Account Administration Fees on that same account.

The Fund has no present intention of paying, accruing or incurring any such Service Fees on the PRM class and AVR class until such time as approved by the Fund's Board of Trustees.

The IS class of the Fund has no present intention of paying, accruing or incurring more than 0.05% of any such Service Fees until such time as approved by the Fund's Board of Trustees.

The SEL class of the Fund has no present intention of paying, accruing or incurring more than 0.02% of any such Service Fees until such time as approved by the Fund's Board of Trustees.

ACCOUNT ADMINISTRATION FEES

The Fund may pay Account Administration Fees of up to 0.25% of average net assets to banks that are not registered as broker-dealers or investment advisers for providing administrative services to the Fund and its shareholders. If a financial intermediary receives Account Administration Fees on an account, it is not eligible to also receive Service Fees or Recordkeeping Fees on that same account.

The Fund has no present intention of paying, accruing or incurring any such Account Administration Fees on the PRM class and AVR class until such time as approved by the Fund's Board of Trustees.

The IS class of the Fund has no present intention of paying, accruing or incurring more than 0.05% of any such Account Administration Fees until such time as approved by the Fund's Board of Trustees.

The SEL class of the Fund has no present intention of paying, accruing or incurring more than 0.02% of any such Account Administration Fees until such time as approved by the Fund's Board of Trustees.

RECORDKEEPING FEES

The Fund may pay Recordkeeping Fees on an average-net-assets basis or on a per-account-per-year basis to financial intermediaries for providing recordkeeping services to the Fund and its shareholders. If a financial intermediary receives Recordkeeping Fees on an account, it is not eligible to also receive Account Administration Fees or Networking Fees on that same account.

NETWORKING FEES

The Fund may reimburse Networking Fees on a per-account-per-year basis to financial intermediaries for providing administrative services to the Fund and its shareholders on certain non-omnibus accounts. If a financial intermediary receives Networking Fees on an account, it is not eligible to also receive Recordkeeping Fees on that same account.

ADDITIONAL PAYMENTS TO FINANCIAL INTERMEDIARIES

The Distributor may pay, out of its own resources, amounts to certain financial intermediaries, including broker-dealers, banks, registered investment advisers, independent financial planners and retirement plan administrators, that support the sale of Shares or provide services to Fund shareholders. The amounts of these payments could be significant, and may create an incentive for the financial intermediary or its employees or associated persons to recommend or sell Shares of the Fund to you. Not all financial intermediaries receive such payments and the amount of compensation may vary by intermediary. In some cases, such payments may be made by or funded from the resources of companies affiliated with the Distributor (including the Adviser). These payments are not reflected in the fees and expenses listed in the fee table section of the Fund's Prospectus and described above because they are not paid by the Fund.

These payments are negotiated and may be based on such factors as: the number or value of Shares that the financial intermediary sells or may sell; the value of client assets invested; the level and types of services or support furnished by the financial intermediary; or the Fund's and/or other Federated Hermes funds' relationship with the financial intermediary. These payments may be in addition to payments, as described above, made by the Fund to the financial intermediary. In connection with these payments, the financial intermediary may elevate the prominence or profile of the Fund and/or other Federated Hermes funds, within the financial intermediary's organization by, for example, placement on a list of preferred or recommended funds and/or granting the Distributor preferential or enhanced opportunities to promote the funds in various ways within the financial intermediary's organization. You can ask your financial intermediary for information about any payments it receives from the Distributor or the Fund and any services provided, as well as about fees and/or commissions it charges.

How to Purchase Shares

You may purchase all Shares, with the exception of Advisor Shares and SDG Shares, through a financial intermediary, directly from the Fund or through an exchange from another Federated Hermes fund. The Fund reserves the right to reject any request to purchase or exchange Shares. New investors must submit a completed New Account Form.

The Advisor Shares offered through this Prospectus are available for purchase exclusively to shareholders investing through certain financial intermediaries that have entered into an agreement with the Fund's Distributor with respect to the Advisor Shares. If an intermediary's aggregate account (omnibus account) meets the Fund's investment minimum requirements, there is no minimum requirement for the underlying sub-accounts. Keep in mind that financial intermediaries may charge you fees for their services in connection with your Share transactions.

By Online Account Services

You may access your accounts online to redeem or exchange Shares through FederatedHermes.com/us's Shareholder Account Access system once you have registered for access. Online transactions may be subject to certain limitations including limitations as to the amount of the transaction. For more information about the services available through Shareholder Account Access, please visit FederatedHermes.com/us and select "Sign In" and "Access and Manage Investments," or call 1-800-341-7400, Option #4 to speak with a Client Service Representative.

PAYMENT METHODS FOR REDEMPTIONS

Your redemption proceeds will be mailed by check to your address of record. The following payment options are available if you complete the appropriate section of the New Account Form or an Account Service Options Form. These payment options require a signature guarantee if they were not established when the account was opened:

- An electronic transfer to your account at a financial institution that is an ACH member; or
- Wire payment to your account at a domestic commercial bank that is a Federal Reserve System member.

METHODS THE FUND MAY USE TO MEET REDEMPTION REQUESTS

The Fund intends to pay Share redemptions in cash. To ensure that the Fund has cash to meet Share redemptions on any day, the Fund typically expects to hold a cash or cash equivalent reserve or sell portfolio securities.

In unusual or stressed circumstances, the Fund may generate cash in the following way:

- **Inter-fund Borrowing and Lending.** The SEC has granted an exemption that permits the Fund and all other funds advised by subsidiaries of Federated Hermes ("Federated Hermes funds") to lend and borrow money for certain temporary purposes directly to and from other Federated Hermes funds. Inter-fund borrowing and lending is permitted only: (a) to meet shareholder redemption requests; (b) to meet commitments arising from "failed" trades; and (c) for other temporary purposes. All inter-fund loans must be repaid in seven days or less.

LIMITATIONS ON REDEMPTION PROCEEDS

Redemption proceeds will be wired or mailed within one business day after receiving a request in proper form. The Fund may delay the payment of redemption proceeds in the following circumstances:

- to allow your purchase to clear (as discussed below); or
- during any period when the Federal Reserve wire or Federal Reserve banks are closed (in which case redemption proceeds will be wired within one business day after the reopening of the Federal Reserve wire or Federal Reserve banks).

In addition, the Fund may suspend redemptions, or delay the payment of redemption proceeds, in the following circumstances:

- during any period when the NYSE is closed or restricted (in which case redemption proceeds will be wired within one business day after the reopening of the NYSE);
- during any period in which an emergency exists as a result of which: (1) disposal of the securities owned by the Fund is not reasonably practicable; or (2) it is not reasonably practicable for the Fund to fairly determine the net asset value of its shares;
- during any period during which the SEC has, by rule or regulation, deemed that: (1) trading shall be restricted; or (2) an emergency exists;
- during any period that the SEC may by order permit for your protection; or
- during any period during which the Fund as part of a necessary liquidation of the Fund, has properly postponed and/or suspended redemption of Shares and payment in accordance with federal securities laws.

If you request a redemption of Shares recently purchased by check (including a cashier's check or certified check), money order, bank draft or ACH, your redemption proceeds may not be made available for up to seven calendar days to allow the Fund to collect payment on the instrument used to purchase such Shares. If the purchase instrument does not clear, your purchase order will be canceled and you will be responsible for any losses incurred by the Fund as a result of your canceled order.

Pursuant to rules under Section 22(e) of the 1940 Act, while it is unlikely that the Fund's weekly liquid assets would fall below 10% given the Fund's investment strategy and operation as a government money market fund, the Board, in its discretion, may suspend redemptions in the Fund and approve the liquidation of the Fund if the Fund's weekly liquid assets were to fall below 10% and the Board determines it would not be in the best interests of the Fund to continue operating. The Board also may suspend redemptions in the Fund and approve the liquidation of the Fund if the Board

determines that the deviation between the Fund's amortized cost price per share and its market-based NAV may result in material dilution or other unfair results to investors or existing shareholders. Prior to suspending redemptions, the Fund would be required to notify the SEC of its decision to liquidate and suspend redemptions. If the Fund ceases honoring redemptions and determines to liquidate, the Fund expects that it would notify shareholders on the Fund's website or by press release. Distributions to shareholders of liquidation proceeds may occur in one or more disbursements.

You will not accrue interest or dividends on uncashed redemption checks from the Fund when checks are undeliverable and returned to the Fund.

REDEMPTIONS FROM RETIREMENT ACCOUNTS

In the absence of your specific instructions, 10% of the value of your redemption from a retirement account in the Fund may be withheld for taxes. This withholding only applies to certain types of retirement accounts.

EXCHANGE PRIVILEGE

You may exchange Shares of the Fund for shares of any Federated Hermes fund or share class that does not have a stated sales charge or contingent deferred sales charge, except shares of Federated Hermes Institutional Prime Obligations Fund, Federated Hermes Institutional Tax-Free Cash Trust, no-load Class A Shares and Class R Shares of any Fund.

To do this, you must:

- meet any applicable shareholder eligibility requirements;
- ensure that the account registrations are identical;
- meet any applicable minimum initial investment requirements; and
- receive a prospectus for the fund into which you wish to exchange.

An exchange is treated as a redemption and a subsequent purchase, and is a taxable transaction. The Fund reserves the right to reject any request to purchase or exchange Shares. The Fund may modify or terminate the exchange privilege at any time.

SYSTEMATIC WITHDRAWAL/EXCHANGE PROGRAM

You may automatically redeem or exchange Shares. The minimum amount for all new or revised systematic redemptions or exchanges of Shares is \$50 per transaction per fund. Complete the appropriate section of the New Account Form or an Account Service Options Form or contact your financial intermediary or the Fund. Your account value must meet the minimum initial investment amount at the time the program is established. This program may reduce, and eventually deplete, your account. Payments should not be considered yield or income.

CHECKWRITING

CII, CS and SS Classes

You may request checks to redeem your Fund Shares. Your account will continue to receive the daily dividend declared on the Shares being redeemed until the check is presented for payment.

DEBIT CARD

CII, CS and SS Classes

You may request a debit card account that allows you to redeem Shares. There is an annual fee for this service that the Fund will automatically deduct from your account.

Any attempt to redeem Shares through checkwriting or debit card before the purchase instrument has cleared will be automatically rejected.

ADDITIONAL CONDITIONS

Telephone Transactions

The Fund will record your telephone instructions. If the Fund does not follow reasonable procedures, it may be liable for losses due to unauthorized or fraudulent telephone instructions.

Share Certificates

The Fund no longer issues share certificates. If you are redeeming or exchanging Shares represented by certificates previously issued by the Fund, you must return the certificates with your written redemption or exchange request. For your protection, send your certificates by registered or certified mail, but do not endorse them.

Security and Privacy Protection

ONLINE ACCOUNT AND TELEPHONE ACCESS SECURITY

Federated Hermes will not be responsible for losses that result from unauthorized transactions, unless Federated Hermes does not follow procedures designed to verify your identity. When initiating a transaction by telephone or online, shareholders should be aware that any person with access to your account and other personal information including PINs (Personal Identification Numbers) may be able to submit instructions by telephone or online. Shareholders are responsible for protecting their identity by using strong usernames and complex passwords which utilize combinations of mixed case letters, numbers and symbols, and change passwords and PINs frequently.

Using FederatedHermes.com/us's Account Access website means you are consenting to sending and receiving personal financial information over the Internet, so you should be sure you are comfortable with the risks. You will be required to accept the terms of an online agreement and to establish and utilize a password in order to access online account services. The Transfer Agent has adopted security procedures to confirm that Internet instructions are genuine. The Transfer Agent will also send you written confirmation of share transactions. The Transfer Agent, the Fund and any of its affiliates will not be liable for losses or expenses that occur from fraudulent Internet instructions reasonably believed to be genuine.

The Transfer Agent or the Fund will employ reasonable procedures to confirm that telephone transaction requests are genuine, which may include recording calls, asking the caller to provide certain personal identification information, sending you written confirmation, or requiring other confirmation security procedures. The Transfer Agent, the Fund and any of its affiliates will not be liable for relying on instructions submitted by telephone that the Fund reasonably believes to be genuine.

ANTI-MONEY LAUNDERING COMPLIANCE

To help the government fight the funding of terrorism and money laundering activities, federal law requires financial institutions to obtain, verify and record information that identifies each new customer who opens a Fund account and to determine whether such person's name appears on governmental lists of known or suspected terrorists or terrorist organizations. Pursuant to the requirements under the USA PATRIOT Act, the information obtained will be used for compliance with the USA PATRIOT Act or other applicable laws, regulations and rules in connection with money laundering, terrorism or other illicit activities.

Information required includes your name, residential or business address, date of birth (for an individual), and other information that identifies you, including your social security number, tax identification number or other identifying number. The Fund cannot waive these requirements. The Fund is required by law to reject your Account Application if the required information is not provided. If, after reasonable effort, the Fund is unable to verify your identity or that of any other person(s) authorized to act on your behalf, or believes it has identified potentially suspicious, fraudulent or criminal activity, the Fund reserves the right to close your account and redeem your shares at the next calculated NAV without your permission. Any applicable contingent deferred sales charge (CDSC) will be assessed upon redemption of your shares.

The Fund has a strict policy designed to protect the privacy of your personal information. A copy of Federated Hermes' privacy policy notice was given to you at the time you opened your account. The Fund sends a copy of the privacy notice to you annually. You may also obtain the privacy notice by calling the Fund, or through FederatedHermes.com/us.

Account and Share Information

ACCOUNT ACTIVITY

You will receive periodic statements reporting all account activity, including systematic transactions and dividends paid by the Fund.

DIVIDENDS AND CAPITAL GAINS

The Fund declares any dividends daily and pays them monthly to shareholders.

Dividends are based on estimates of income, expenses and shareholder activity for the Fund. Actual income, expenses and shareholder activity may differ from estimates and differences, if any, will be included in the calculation of subsequent dividends. You may obtain an estimate of the Fund's daily dividend factor by calling the Fund at 1-800-341-7400 or at FederatedHermes.com/us.

From time to time, the Fund may realize capital gains or losses. If capital gains or losses were to occur, they could result in an increase or decrease in dividends. The Fund pays any capital gains at least annually, and may make such special distributions of dividends and capital gains as may be necessary to meet applicable regulatory requirements. Your dividends and capital gains distributions will be automatically reinvested in additional Shares without a sales charge, unless you elect cash payments. Dividends may also be reinvested without sales charges in shares of any class of any other Federated Hermes fund of which you are already a shareholder.

Important information regarding the Fund's distributions, including the percentage of the Fund's distributions that are attributable to capital gains during the calendar year (if any), is available via the link to the Fund and share class name at FederatedHermes.com/us/FundInformation.

SMALL DISTRIBUTIONS AND UNCASHED CHECKS

Generally, dividend and/or capital gain distributions payable by check in an amount of less than \$25 will be automatically reinvested in additional shares. This policy does not apply if you have elected to receive cash distributions that are directly deposited into your bank account via wire or ACH.

Additionally, if one or more dividend or capital gain distribution checks are returned as "undeliverable," or remain uncashed for 180 days, all subsequent dividend and capital gain distributions will be reinvested in additional shares. No interest will accrue on amounts represented by uncashed distribution checks. For questions on whether reinvestment applies to your distributions, please contact a Client Service Representative at 1-800-341-7400.

Certain states, including the State of Texas, have laws that allow shareholders to designate a representative to receive abandoned or unclaimed property ("escheatment") notifications by completing and submitting a designation form that generally can be found on the official state website. If a shareholder resides in an applicable state and elects to designate a representative to receive escheatment notifications, escheatment notices generally will be delivered as required by such state laws, including, as applicable, to both the shareholder and the designated representative. A completed designation form may be mailed to the Fund (if Shares are held directly with the Fund) or to the shareholder's financial intermediary (if Shares are not held directly with the Fund). Shareholders should refer to relevant state law for the shareholder's specific rights and responsibilities under his or her state's escheatment law(s), which can generally be found on a state's official website.

ACCOUNTS WITH LOW BALANCES

Federated Hermes reserves the right to close accounts if redemptions or exchanges cause the account balance to fall below:

- \$1 million for the SEL and AVR classes;
- \$10,000 for the CS class (or in the case of IRAs, \$250);
- \$25,000 for the CII class (or in the case of IRAs, \$250);
- \$500,000 for the IS, SS, ADM, CAP and TR classes;
- \$5 million for the PRM and SDG classes.

Before an account is closed, you will be notified and allowed at least 30 days to purchase additional Shares to meet the minimum.

TAX INFORMATION

The Fund and/or your financial intermediary provides year-end tax information and an annual statement of your account activity to assist you in completing your federal, state and local tax returns. Fund distributions of dividends and capital gains are taxable to you whether paid in cash or reinvested in the Fund. Dividends are taxable at different rates depending on the source of dividend income. Distributions of net short-term capital gains are taxable to you as ordinary income. Distributions of net long-term capital gains are taxable to you as long-term capital gains regardless of how long you have owned your Shares.

Fund distributions are expected to be primarily dividends. Redemptions and exchanges are taxable sales. Please consult your tax adviser regarding your federal, state and local tax liability.

FREQUENT TRADING POLICIES

Given the short-term nature of the Fund's investments and its use of the amortized cost method for calculating the NAV of Fund Shares, the Fund does not anticipate that in the normal case frequent or short-term trading into and out of the Fund will have significant adverse consequences for the Fund and its shareholders. For this reason and because the Fund is intended to be used as a liquid short-term investment, the Fund's Board has not adopted policies or procedures to monitor or discourage frequent or short-term trading of the Fund's Shares. Regardless of their frequency or short-term nature, purchases and redemptions of Fund Shares can have adverse effects on the management of the Fund's portfolio and its performance.

Other funds in the Federated Hermes family of funds may impose monitoring policies. Under normal market conditions, such monitoring policies are designed to protect the funds being monitored and their shareholders, and the operation of such policies and shareholder investments under such monitoring are not expected to have a materially adverse impact on the Federated Hermes funds or their shareholders. If you plan to exchange your Fund Shares for shares of another Federated Hermes fund, please read the prospectus of that other Federated Hermes fund for more information.

Who Manages the Fund?

The Board governs the Fund. The Board selects and oversees the Adviser, Federated Investment Management Company. The Adviser manages the Fund's assets, including buying and selling portfolio securities. Federated Advisory Services Company (FASC), an affiliate of the Adviser, provides certain support services to the Adviser. The fee for these services is paid by the Adviser and not by the Fund.

The address of the Adviser and FASC is 1001 Liberty Avenue, Pittsburgh, PA 15222-3779.

The Adviser and other advisory subsidiaries of Federated Hermes combined, advise approximately 101 registered investment companies spanning equity, fixed-income and money market mutual funds and also manage a variety of other pooled investment vehicles, private investment companies and customized separately managed accounts (including non-U.S./offshore funds). ADVISORY FEES

The Fund's investment advisory contract provides for payment to the Adviser of an annual investment advisory fee of 0.15% of the Fund's average daily net assets. The Adviser may voluntarily waive a portion of its fee or reimburse the Fund for certain operating expenses. The Adviser and its affiliates have also agreed to certain "Fee Limits" as described in the footnote to the "Risk/Return Summary: Fees and Expenses" table found in the "Fund Summary" section of the Prospectus.

A discussion of the Board's review of the Fund's investment advisory contract is available in the Fund's Form N-CSR for the periods ended July 31 and January 31, respectively.

SDG SHARES

Federated Hermes and/or its affiliates will donate 5% of the quarterly management fee revenue and administrative fee revenue attributable to the SDG class, net of any waivers ("net class revenue"), to a designated organization whose mission is aligned with one or more of the United Nations Sustainable Development Goals (UN SDGs). These 17 UN SDGs seek to advance a shared vision and to accelerate responses to global challenges in order to build more equal,

inclusive and sustainable economies and societies. Federated Hermes expects to make the contribution on at least a quarterly basis and has sole discretion to designate the organization or organizations and to increase, decrease or terminate the contribution at any time. Federated Hermes and/or its affiliates' donation of an amount equal to a percentage of the quarterly net class revenue to a designated organization may result in a tax benefit for Federated Hermes and/or its affiliates.

The following charts provide additional hypothetical information about the effect of the Fund's expenses, including investment advisory fees and other Fund costs, on the Fund's assumed returns over a 10-year period. The charts show the estimated expenses that would be incurred in respect of a hypothetical investment of \$10,000, assuming a 5% return each year, and no redemption of Shares. Each chart also assumes that the Fund's annual expense ratio stays the same throughout the 10-year period and that all dividends and distributions are reinvested. The annual expense ratio used in each chart is the same as stated in the "Fees and Expenses" table of this Prospectus (and thus does not reflect any fee waiver or expense reimbursement currently in effect). The maximum amount of any sales charge that might be imposed on the *purchase* of Shares (and deducted from the hypothetical initial investment of \$10,000; the "Front-End Sales Charge") is reflected in the "Hypothetical Expenses" column. The hypothetical investment information does not reflect the effect of charges (if any) normally applicable to *redemptions* of Shares (e.g., deferred sales charges, redemption fees). Mutual fund returns, as well as fees and expenses, may fluctuate over time, and your actual investment returns and total expenses may be higher or lower than those shown below.

Performance quoted represents past performance, which is no guarantee of future results. Investment return will vary. An investor's shares, when redeemed, may be worth more or less than the original cost. Current performance may be lower or higher than what is stated. To view performance current to the most recent month-end, contact us or visit FederatedHermes.com/us.

Although not contractually obligated to do so, the advisor and/or certain fund service providers waived all or a portion of their fees or reimbursed the fund for certain operating expenses. These voluntary waivers and reimbursements may be modified or terminated at any time; accordingly, the fund's expenses may vary (i.e., increase or decrease) during the fund's fiscal year. These waivers increase income to the fund and result in a higher return to investors.

Otherwise, the 7-day yield would have been 4.27% and total return would have been lower.

Total return represents the change in value of an investment after reinvesting all income and capital gains. Yield quotations more closely reflect the current earnings of the fund than the total return quotation.

Prior to April 2, 2024, Rule 2a-7 required that money market funds maintain at least 10% liquidity assets and at least 30% weekly liquidity assets. Effective April 2, 2024, the daily and weekly liquid assets thresholds increased to 25% and 50%, respectively. Both requirements are "point of purchase" requirements. Thus, it is possible that money market funds may, at any given time, have liquidity percentages reflecting less than the daily and weekly liquidity asset thresholds. In such circumstances, the portfolio manager will be required to purchase securities to meet the requisite liquidity thresholds prior to purchasing longer-dated securities. Additionally, the SEC requirements for what may be defined as "daily" and "weekly" differs from the standard maturities used in calculating the "Effective Maturity Schedule." Therefore, the percentages in the 2a-7 Liquidity table will generally not equal the amounts shown in the "Effective Maturity Schedule."

Portfolio manager commentary

The fourth quarter opened in the wake of the Federal Reserve easing rates for the first time in its current cycle that began with aggressive hikes in 2022. That cut, at its September Federal Open Market Committee (FOMC) meeting, was also aggressive, reducing the target fed funds range by 50 basis points to 4.75-5%. But policymakers paired that with a decrease in their forecast for the level of rates in 2024, with the Summary of Economic Projections (SEP) calling for only a quarter-point cut in each of the last two FOMC meetings. In October, their conviction appeared to fade further in the face of a persistently strong economy that might require tighter policy for a longer period than previously anticipated.

Key to the hawkish shift was concern about the ramifications of some of the plans President-elect Donald Trump promised to enact. The thinking is that the potential combination of increased federal tax cuts, expanded government expenditures, new tariffs and significant deportations could increase price and cost pressures. While the quarter-percentage-point cut in the FOMC meeting ending November 7 was likely predetermined—

rather than a response to Trump's win—the similar-sized reduction at the December meeting was yet again paired with expectations for fewer future rate cuts than once assumed.

The updated SEP was a considerable downshift from September's forecast of a full point of easing in 2025 to just a half point reduction of the target range that now stood at 4.25-4.5%. Even Chair Jerome Powell muted his enthusiasm that inflation had been beaten, and one FOMC member voted in favor of no cut—the second dissent in three meetings. The shallower downward rate path might mean Fed officials now envision a higher fed funds terminal rate—the longer-run level at which monetary policy is neither accommodative nor restrictive, though its goal for inflation remains 2%. But when it reaches that level is more uncertain than ever. So is the likelihood that Powell can guide the economy to a soft landing.

At the end of the quarter, yields on 1-, 3-, 6- and 12-month US Treasuries were 4.28%, 4.32%, 4.28% and 4.15%, respectively.

You could lose money by investing in the fund. Although the fund seeks to preserve the value of your investment at \$1.00 per share, it cannot guarantee it will do so. An investment in the fund is not a bank account and is not insured or guaranteed by the Federal Deposit Insurance Corporation or any other government agency. The fund's sponsor is not required to reimburse the fund for losses, and you should not expect that the sponsor will provide financial support to the fund at any time, including during periods of market stress.

Government money market funds are not required to adopt a liquidity fee framework.

Performance shown is for Institutional Shares. The fund offers additional share classes whose performance will vary due to differences in charges and expenses. Please consult your financial institution regarding your eligibility to purchase these classes.

A word about risk

Definitions

Net yields are based on the average daily income dividend and average net asset value for the 7 days ended on the date of calculation. The 7-day net annualized yield is based on the average net income per share for the 7 days ended on the date of calculation and the offering price on that date.

The fund is a managed portfolio and its holdings are subject to change. Holdings percentages are based on net assets at the close of business on the date above, and may not necessarily reflect adjustments that are routinely made when presenting net assets for formal financial statement purposes.

Weighted average maturity is the mean average of the periods of time remaining until the securities held in the fund's portfolio (a) are scheduled to be repaid, (b) would be repaid upon a demand by the fund or (c) are scheduled to have their interest rate readjusted to reflect current market rates. For government variable rate securities, if the interest rate is readjusted no less frequently than every 397 calendar days, the security shall be deemed to have a maturity equal to the period remaining until the next readjustment of the interest rate. For non-government variable rate securities, if the security has a scheduled maturity of 397 days or less the security is treated as maturing on the earlier of the date the security is scheduled to be repaid through demand or the period remaining until the next readjustment of the interest rate. If the variable rate security has a scheduled maturity that is more than 397 days it is the later of those two dates. The mean is weighted based on the percentage of the market value of the portfolio invested in each period.

Weighted average life is calculated in the same manner as the Weighted average maturity (WAM), but is based solely on the periods of time remaining until the securities held in the fund's portfolio (a) are scheduled to be repaid or (b) would be repaid upon a demand by the fund without reference to when interest rates of securities within.

Repurchase agreements consist of a financial institution selling securities to a fund and agreeing to repurchase them at a mutually agreed upon price and time.

Ratings and rating agencies

Ratings are based on an evaluation of several factors, including credit quality, diversification and maturity of assets in the portfolio, as well as management strength and operational capabilities. A money market fund rated AAAM by S&P Global Ratings is granted after evaluating a number of factors, including credit quality, market price, exposure and management. Money market funds rated Aaa-mf by Moody's are judged to be of an investment quality similar to Aaa-rated fixed income obligations, that is, they are judged to be of the best quality. Fitch's money market fund ratings are an assessment of a money market fund's capacity to preserve principal and provide liquidity through limiting credit, market and liquidity risk. For more information on credit ratings, visit spglobal.com, moody.com and fitchratings.com.

Ratings are subject to change and do not remove market risk.

Credit ratings do not provide assurance against default or other loss of money and can change.

City of Oxford Financial Policies

Adopted by City Council - March, 2014
AMENDED – April, 2016

surplus property and not a disposal. Fixed assets may be disposed of in any one of six ways:

- A. Sale or trade-in;
- B. Abandonment/retirement;
- C. Lost or stolen;
- D. Transfer;
- E. Cannibalization (taking parts and employing them for like uses within the department, such as is: often the practice in computer or vehicle maintenance);
- F. Casualty loss.

Only when the asset is no longer in possession of the department, due to one of the six reasons listed above, is disposal action appropriate. Assets are "abandoned" or "retired" when there is no longer any use for them in the department; they are of no use to any other City department; or they cannot be repaired, transferred, cannibalized, sold, or traded-in. Stolen items must be reported to the Oxford Police Department and a police report filed. A copy of this report must accompany the disposal record. Casualty losses must be documented within 24 hours of loss and reported to the City Clerk immediately for follow-up with the City's insurance carrier. Cannibalized items are considered surplus and are disposed of by noting cannibalization on the disposal record. Departments will send documentation of items cannibalized to the City Clerk's Office, and all remaining costs and accumulated depreciation will be removed from appropriate asset accounts in the general fixed asset fund. All assets no longer in the possession of the department, due to one of these six qualifying conditions and after submission of all appropriate documentation to the City Clerk's Office, will be removed from the master departmental asset file and considered disposed. Department management is responsible for reviewing disposal reports, evaluating causes and trends leading to disposals, and implementing procedures to more effectively manage and control disposals when the dispositions represent problems, inefficiencies, or the incurrence of unnecessary cost.

8. Physical Inventory. An annual physical inventory of all fixed assets will be performed each January by the department heads. A full report of the results of the inventory will be sent to the City Clerk.

32. INVESTMENT POLICY - - Scope.

This investment policy applies to all funds under the City's control; excluding the City's pension funds, which are invested at the direction of the City Employees' Retirement System.

33. Objectives.

The following investment objectives shall be met with this policy:

1. **Safety.** Preservation of principal shall always be the foremost objective in any investment transaction involving City funds. Those investing funds on the City's behalf must first ensure that capital losses are avoided by limiting credit and interest risk.
2. **Liquidity.** The second objective shall be the maintenance of sufficient liquidity within the investment portfolio. The City's investment portfolio shall be structured such that securities mature at the time when cash is needed to meet anticipated demands. Additionally, since all possible cash demands cannot be anticipated, the portfolio should maintain some securities with active secondary or resale markets.
3. **Return on Investment.** The third objective shall be the realization of competitive investment rates, relative to the risk being assumed. However, yield on the City's investment portfolio is of secondary importance compared to the safety and liquidity objectives described above.

34. Delegation of Authority.

The overall management of the investment program is the responsibility of the Mayor and Council. Responsibility for the daily investment activities will be assigned to the City Clerk. Responsibilities to fulfill this authority include: opening accounts with banks, brokers, and dealers; arranging for the safekeeping of securities; and executing necessary documents. A system of internal controls over investments will be established and approved by the City's independent auditors. The controls are designed to prevent losses of public funds arising from fraud, error, misrepresentation by third parties, unanticipated changes in financial markets, or imprudent action by staff and City officials. No person may engage in an investment transaction except as provided for under the terms of the policy.

35. Authorized Investments.

All investment activity is required to be in compliance with Chapter 83 of Title 36 of the Official Code of Georgia, which establishes guidelines for local government investment procedures. The City may invest funds subject to its control and jurisdiction in the following:

1. Certificates of Deposit (CD's) issued by banks insured by the Federal Deposit Insurance Corporation (FDIC). Deposits in excess of FDIC coverage must be collateralized by securities with a market value equal to at least one hundred ten percent (110%) of the deposit. Only those securities described in Georgia Code 50-17-59 can be pledged as collateral;
2. Certificates of Deposit of (CD's) issued by savings and loans associations issued by the Federal Savings and Loan Insurance Corporation (FSLIC). Deposits in excess of the FSLIC coverage must be collateralized by securities equal to at least one hundred ten percent (110%) of the deposit. Only those securities described in Georgia Code 50-17-59 can be pledged as collateral;
3. Obligations issued by the United States Government;

4. Obligations fully insured or guaranteed by the United States Government or a United States Government Agency;
5. Obligation of any corporation of the United States Government;
6. Obligation of the State of Georgia or of other states;
7. Obligation of other political subdivisions of the State of Georgia;
8. The local government investment pool of the State of Georgia managed by the State Department of Administrative Services, Fiscal Division;
9. Repurchase Agreements (REPO's) issued by commercial banks insured by the FDIC and collateralized by securities described in Georgia Code 50-17-59 with a market value equal to at least one hundred three percent (103%) of the Repurchase Agreements' maturity value;
10. Repurchase Agreements (REPS's) issued by primary dealers supervised by the Federal Reserve Bank of New York and collateralized by securities described in Georgia Code 50-17-59 with a market value of at least one hundred three percent (103%) of the repurchase agreements' maturity value; and
11. Prime Banker's Acceptances.

36. Prudence.

The standard of prudence to be used by investment officials shall be the "prudent person" standard and shall be applied in the context of managing an overall portfolio. Under the "prudent person" standard, investments shall be made with judgment and care, under circumstances then prevailing, which persons of prudence, discretion, and intelligence exercise in the management of their own affairs, not for speculation but for investment, considering the probable safety of their capital as well as the probable revenue to be gained. The City Clerk and all designees acting in accordance with 1) written procedures, 2) this investment policy, and 3) exercising due diligence shall be relieved of personal responsibility for an individual security's credit risk or market price changes, provided deviations from expectations are reported in a timely fashion and appropriate action is taken to control adverse development.

37. Diversification.

The City agrees with the premise that diversification is an important component of portfolio security. Therefore, the City shall endeavor to maintain an adequate level of diversification among its investments. The City shall not be over invested in any one type of instrument or financial institution. This limitation shall not apply to the Local Government Investment pool or direct obligations of the United States Government.

38. Maturities.

To achieve the aforementioned objective of adequate liquidity within City's portfolio, the City shall attempt to match investment maturities with anticipated cash flow requirements. Unless matched to a specific cash flow, the maximum maturity of any instrument in the City's portfolio may not exceed two years from the date of acquisition by the City. The maturity of non-negotiable time deposits may not exceed one year.

39. Ethics and Conflicts of Interest.

Officers and employees involved in the investment process will refrain from personal business activity that would conflict with proper execution of the investment program, or which would impair their ability to make impartial investment decisions. Employees and investment official will disclose to the Mayor and Council any material financial interest in financial institutions that conduct business with the City, and they will further disclose any large personal financial/investment positions that would be related to the performance of the City's portfolio. Employees and investment officials will subordinate their personal investment transactions to those of the City-particularly with regard to the time of purchases and sales.

40. Relationships with Banks and Brokers.

The City will select depositories through the City's banking services procurement process-including formal requests for proposals issued as needed. In selecting depositories, objective business criteria will be used. To the extent possible, preference will be given to depositories located within the county. The creditworthiness of the institutions will be a fundamental consideration.

41. Report on Deposits and Investments.

The City Clerk, or his designees, will seek to achieve a market average rate of return on the City's portfolio. Given the special safety and liquidity needs of the City, the basis used to determine whether market yields are being achieved shall be the six month Treasury Bill.

42. GRANT POLICY - - Scope.

The purpose of this policy is to provide direction in the application, acceptance and administration of funds awarded through grants to the City from other local governments, the state or federal government, non-profit agencies, philanthropic organizations and the private sector.

43. Application and Acceptance of Grants.

1. The Mayor and Council must approve the application for and acceptance of any grants.
2. The City will assess the merits of a particular program as if it were funded with local tax dollars. No grant will be accepted that will incur management and reporting costs greater than the grant amount.

44. Grant Administration.

Each department must notify the City Clerk upon the approval of any grant. Prior to the receipt or expenditure of grant revenues, the City Clerk must be provided with the following information prior to receiving grant revenues or making purchases against the grant:

- A. Copy of grant application:

Subject: RE: Questions about investments

Greetings Marcia, I wanted to circle back around with the rates for the interest-bearing bank side accounts. There are 10 accounts on the bank side. 4 do not earn interest, and 6 do.

The four non-interest-bearing accounts have relatively small balances, and we would anticipate keeping those in non-interest-bearing status.

There are 6 interest bearing accounts on the bank side. As a refresher, we propose a rate index on your interest-bearing bank accounts equal to 70% of the lower limit of the fed funds target range. As an example, the lower range fed funds rate today is 4.25%, so 70% of that index today would be 2.975%. It will be a variable rate that changes as the index changes. The interest rate typically changes when the fed moves interest rates. We can set up the index when the new accounts are opened if you so desire. If we can map those to the new index without re-opening, we will certainly save that step for you all if you decide to move forward with this. I checked the lower limit today to make sure that it hasn't changed since our earlier discussions, and it has stayed at 4.25%.

Hello Mr. Andrew,

My name is Joe Langford and I work in the Finance dept at United Bank. I want to give you a brief description explaining how all municipal deposits are fully protected at United Bank regardless of account balance. On 2/1/22, United Bank entered into the Georgia Secure Deposit Program (SDP). This is a program run by the Office of the State Treasurer and provides full protection to all municipal deposits in excess of the \$250,000 in deposit insurance that is provided by the FDIC. All public funds on deposit with us are secured by a combination of collateral pledged to the program and a financial commitment by all the approved Covered Depositories in the program to cover any losses that would arise in the unlikely event of a bank failure. The City of Oxford deposits that are already with United Bank are currently protected under this program. I have attached a letter I originally emailed to the City of Oxford on 1/24/22 as well as a page from the Covered Depositor Report that is published daily by the State of Georgia that shows the City of Oxford is currently protected under the GA SDP. The link for the entire report can be found here: <https://sdp.treasury.ga.gov/Home/Reports#> and then by selecting 'Covered Depositors.'

Please feel free to contact me with any questions/concerns.

Thanks,

Joe Langford

Greetings Tom,

I hope you are doing well. I had a chance to meet Mr. Bill Andrew this morning. He is the new City Manager for the City of Oxford. As you know the Edwards family has a special affinity for Oxford, and we try to take great care of our friends there. Oxford has historically had a relationship with both BB&T and United Bank. However with the recent merger of BB&T and Suntrust into Truist and the consolidation of their local offices, there is a desire to consolidate those accounts over to United Bank. Some of the City Council members for Oxford expressed some concerns about FDIC insurance, but I assured Mr. Andrew that we collateralize our municipal deposits as required by law through the GBA pledging facility to eliminate FDIC coverage concerns. Mr. Andrew has requested a letter, or any information that we can provide confirming our participation in the pledging pool so that he can assure the council members that deposits with our bank are not at risk. If you could provide Mr. Andrew with the information that he needs, I am confident that we can expand our relationship. I am copying Bill on this email so that you have his contact info.

Thanks,

Dear Public Depositor,

In 2016, the Georgia General Assembly passed and Gov. Deal signed Senate Bill 283 authorizing a multibank, contingent liability pledging pool to protect public deposits.

United Bank has been approved by the State Depository Board and State Treasurer to participate in this program, which is called the Georgia Secure Deposit Program (SDP).

Beginning February 1, 2022, your deposits with our bank will be fully protected through this new program.

The way the program works is that 100 percent your deposits with us in excess of FDIC insurance limits will be fully protected by the program. The funds on deposit with us in excess of FDIC insurance limits will be secured by a combination of collateral pledged to the program by us and a financial commitment by all the approved Covered Depositories in the program to cover any losses resulting from the failure of any bank participating in the SDP. As explained in the SDP Policy, in the event of the failure of a Covered Depository, public depositors will be covered by FDIC insurance, the liquidation of collateral pledged to the State Treasurer by the failed institution, and assessments made by the State Treasurer on all other SDP Covered Depositories to the extent needed to cover any shortfall.

Because we are participating in this program, **our bank can no longer use the direct pledging method of collateralization for public deposit accounts.** As described above, your deposits will be fully protected and covered by FDIC insurance and the Georgia Secure Deposit Program.

As part of the oversight of the program to ensure bank compliance and protection of public deposits, beginning in July 2019, the Treasurer, through the Georgia Bankers Association Services, Inc. as Administrator of the program, provides public reporting about the depositories participating in the program. Reporting includes information about each covered depository's total deposits in the program, each depository's required collateralization level, the amount each covered depository is over or under its required collateralization amount and the pro-rata share of each covered depositor's balance as a percent of the total amount of deposits in the program. Also, the Treasurer will also post monthly a list of depositors covered by the program, which will include your account name, but not the amounts you have on deposit.

Your auditors may continue to request confirmation that your deposits are protected. The monthly reports about the banks participating in the Secure Deposit Program, lists of depositors they report being covered and the monthly summary of the program's status are available at <https://sdp.treasury.ga.gov/Home/Reports>

This letter and a download of the summary reports available for a particular period should serve to meet your needs for audit purposes that your bank's deposits are appropriately protected according to Georgia law.

To verify protection of your organization's public deposits by the Georgia Secure Deposit Program:

- Select the period for which you're seeking confirmation from the drop-down menu. The July 17, 2019 report was a special mid-month report we did to get a snapshot of the first couple weeks of the program, which went live July 1, 2019. Reports are prepared once a month after all participants report their prior months' information.
- Check the List of Covered Depositories to make sure your bank is in the program.
- Check the List of Depositors provided by banks to see if your organization/account name is included. This is a list of all depositors banks have reported as being covered by the program. Duplicates are removed, so a customer may have relationships with multiple banks participating in the program and they'll only show up once if both banks have the same account named. There is also an FEIN lookup feature that may be helpful to you in identifying your accounts and the banks you have relationships with. Enter the FEIN exactly as your bank has reported, including hyphens and spaces and select search. Note: your organization's official name may differ slightly from how you and your bank have your covered account named/listed/reported. If you have questions, contact your bank.
- If your bank is listed as a Covered Depositor and your organization/account is listed as a depositor, your accounts are protected by the program.
- There's also a summary report of the program by bank, of deposits, required collateral, reported collateral values etc. This is a snapshot in time, and it's important to note that if a bank is listed as under collateralized on a particular report, the bank would have had three-business days to add pledged collateral to be in compliance.

The policy governing the Secure Deposit Program is available online at <https://ost.georgia.gov/news-events>

Please contact Joseph Langford at jangford@unitedbank.net, or Haley Green at hgreen@unitedbank.net, if you have any further questions regarding the SDP.

Sincerely,

EXHIBIT A

ARTICLE I. - GENERAL

Sec. 4-1. - Short title.

This chapter may be cited as the "City of Oxford Animal Control Regulations."

Sec. 4-2. - Purpose.

It is the purpose of this chapter to minimize health hazards of animals, and to provide a healthier atmosphere in which the citizens may enjoy their pursuits and rights in their individual properties.

Sec. 4-3. - Definitions.

The following words, terms, and phrases, when used in this chapter, shall have the meanings ascribed in this section, except where the context clearly indicates a different meaning:

Abandoned animal means any domestic animal or livestock unattended or not cared for in excess of 36 hours.

Adequate food means sufficient quantity of non-contaminated and nutritionally healthy sustenance, appropriate to the animal, or at the direction of a licensed veterinarian, sufficient to prevent starvation, malnutrition, or risk to the animal's health. Garbage, spoiled, rancid or contaminated food is not adequate food.

Adequate shelter means protective cover appropriate for the species and adequate space to maintain the animal in good health and prevent pain, suffering or a significant risk to the animal's health. Adequate shelter shall consist of a completely enclosed structure with three to four sides with a door opening, a constructed floor, and a roof. Adequate shelter shall be clean, dry and compatible with current weather and age, size, species and condition of the animal. The structure shall be of sufficient size to allow the animal to stand, turn around, lie down and go in and out of the structure comfortably. Adequate shelter must be compatible with the number of animals on the property.

(1) Adequate shelter includes, but is not limited to:

- a. Sufficient coverage and insulation to protect from extreme hot and cold temperatures;
- b. Sufficient protection from the elements to keep the animal dry;

Sec. 4-160. - Dangerous and vicious dog control.

(a) Animal control. Animal control may administer and enforce this article.

(1) Upon receiving a report of a dog believed to be dangerous or vicious, animal control shall make such investigations as necessary to determine if it is a dangerous or vicious dog, and is authorized to make such investigations and inquiries necessary to identify dangerous and vicious dogs and their owners. Law enforcement or animal control shall immediately impound a dog if believed the dog poses a threat to safety.

(2) When animal control classifies a dog as dangerous or vicious, animal control shall notify the dog's owner in writing by certified mail or statutory overnight delivery to the owner's last known address. Such notice shall be dated and deemed complete upon its mailing.

(1) When a dangerous or a vicious dog is classified as such, animal control shall notify the owner in writing mailed within 72 hours of classification.

(2) The notice shall:

a. Be in writing and mailed by certified mail to owner's last known address;

b. Include a summary of the findings that formed the basis for the classification;

c. Dated and state that the owner, within 15 days after the date on the notice, has a right to request a hearing on the determination of dangerous or vicious dog;

d. State that the hearing, if requested, shall be before the animal control board;

e. State if a hearing is not requested, the determination will become effective on a date specified in the notice, after the last day to request a hearing; and

f. Include a form to request a hearing before the animal control board and provide instructions on mailing or delivering such request. If an owner cannot be located within ten days of a determination of dangerous or vicious dog, such dog may be released to an animal shelter or euthanized, as determined by animal control.

(3) When the animal control board receives a request for a hearing, it shall schedule such within 30 days after the request was received; provided, however, that such hearing may be continued by the animal control board for good cause shown. At least ten days prior to the hearing, the animal control board shall, by certified mail, notify the owner in writing of the date, time and place of the hearing. At the hearing, the owner may testify and present evidence and

the animal control board shall receive such evidence and testimony it may find necessary to sustain, modify or overrule the determination.

(4) Within ten days after the hearing, the animal control board shall notify the owner in writing by certified mail of its determination, and if classification as a dangerous or vicious dog is made, the notice shall specify the effective date of such classification.
