Second – Laura McCanless

9. Request by Mauldin & Jenkins to increase audit fees by 7%. (Attachment E)

Mauldin & Jenkins has submitted a request to increase audit fees for the FY 2022 audit by 7% over the fee originally proposed. This would increase the fees for the FY 2022 audit from \$20,000 to \$21,400 (increase of \$1,400). The request was made because the firm lost money on the previous fiscal year’s audit.

George Holt asked if there is a contract with Mauldin & Jenkins. Marcia Brooks explained that there is no multi-year contract. The City Council approved their five-year proposal last year. Their idea of a contract is an engagement letter which is executed each year at the beginning of the audit.

A motion to approve the increase was made by Mike Ready

Second – Laura McCanless

The motion was approved unanimously (5/0).

10. Recommendation to Change Credit Card Providers for In-Person Services and to Add Online and IVR (Phone) Payments for Citations (Attachment F)

9. **Invoices** (Attachment G)

George Holt asked what the current pay rates are for temporary workers vs. the amount the city pays the temporary service. He wanted to ensure that someone is keeping an eye on this cost. Jody Reid explained that some of the Public Works positions have been vacant and it has taken time to fill them. Temporary workers were used throughout the summer for grounds maintenance.

10. **Executive Session**

5. Mayor's Announcements

- It is his understanding that the Newton County Board of Commissioners will be voting this evening on the Intergovernmental Agreement (IGA) for the 2023 SPLOST referendum. The IGA is for a six-year SPLOST and splits the projected amount of \$108 million with 78% going to Newton County and 22% going to the cities of Newton County distributed according to their population percentages. Any excess collections will be allocated using the same formulas. The final agreement is due to the State by August 4, 2022.

6. Citizen Concerns

Laura McCanless shared a concern about vehicles racing at the intersection of Williams Road and City Pond Road which was passed on to Covington Police by Chief Anglin.

**7. Approval of MOA with Northeast Georgia Regional Commission (NEGRC) for the Georgia Outdoor Stewardship Program (GOSP) for Grant Application Preparation
(Attachment C)**

**A motion to approve the MOA was made by Jim Windham
Second – Laura McCanless**

Discussion:

Laura McCanless advised she thought the city's recent purchase of land could be included in the city's match. Mayor Eady advised that the land purchase was outside the period allowed for considering it as eligible for the match portion, but it is still an important point to bring up in the application.

Jim Windham asked if there is still discussion about the DDA giving land back to the city in relation to this grant. Laura McCanless stated such a land exchange would be beneficial for the grant application because it would demonstrate a community partnership. She advised the DDA had discussed it and the only stipulation they had was that it should be a natural entry point for the trail accessible to the downtown district. Mayor Eady advised it could be placed on the August work session agenda and on the DDA August meeting agenda.

The motion was approved unanimously (6/0).

8. Consideration of Holding the FY 2023 City Millage to be the Same as the FY 2022 Rate (Attachment D)

The proposed millage rate for 2022 is 5.444, which is the same millage rate imposed last year. While the millage rate is not being increased, this is considered a tax increase by State law because of an increase in the valuation of city property.

**A motion to set the 2022 millage rate at 5.444 was made by Mike Ready
Second – Laura McCanless**

Discussion:

Jim Windham asked what the effect would be of not increasing the tax. Mayor Eady stated that this impact is shown on the materials published in the newspaper. It is the amount of the tax increase. Mr. Windham asked what percent of the city's revenue property tax comprises. Mayor Eady stated estimated property tax revenue as a percentage of total revenue for the General Fund for FY 2023 is about 10%. Mr. Windham asked what the issue is with transferring money from Enterprise funds to General funds. Mayor Eady stated part of it is transparency and accuracy in terms of paying for the services of maintaining the city. If revenue is not generated through property taxes, it will have to be generated through utility bills.

Mr. Windham stated that homeowners can take steps to control their costs for utility payments, but they cannot control what they pay for taxes. He is not comfortable with requiring homeowners to pay higher property taxes after several years of not increasing property taxes or utility rates and taking steps during the COVID-19 pandemic to help residents.

Mayor Eady stated that costs in the general fund to run the city are increasing and if the increased costs are not covered by property taxes, they will have to be covered by utility rate increases. His intention is to lower utility rate costs. The electric rate structure is based on the city needing a portion of those payments to cover general fund expenditures, and that has not been required for the last three years.

Mr. Windham stated that he always wants to be able to point to how the money that is spent by the City Council helps the constituents.

Laura McCanless stated that it is also important to point out to constituents that over 29% of their tax payment goes to the county and to schools. Oxford is not getting much of the full tax pie in Newton County.

The motion carried (4/2). Jim Windham and George Holt voted nay.

9. Invoices (Attachment E)

A clarification was made about the tree trimming costs listed being part of the annual tree trimming that is planned around the city.

10. Executive Session

Jim Windham made a motion to enter Executive Session at 7:46 p.m. to discuss real estate matters. Mike Ready seconded the motion. The motion was approved unanimously (6/0).

Jim Windham made a motion to exit Executive Session at 8:05 p.m. Mike Ready seconded the motion. The motion was approved unanimously (6/0).

Agenda (Attachment A)

1. Mayor Pro Tem’s Announcements

None.

2. Committee Reports

- a. **Trees, Parks, and Recreation Board** – Cheryl Ready provided the report for this Board.
- b. **Sustainability Committee** – Laura McCanless provided the report for this Committee. She announced plans to move forward with fall plantings of native plants for an estimated cost of \$3,670 to be paid from funds available in the FY 2023 budget. Mayor Eady has approved moving forward with this purchase due to the need to get on ReForest ATL’s planting list quickly.
- c. **Planning Commission** – Bill Andrew provided the report for this Commission.
- d. **Downtown Development Authority (DDA)** – Mike Ready provided the report for this Authority.

3. **Consider the Pricing so the City may Contract for Bike/Ped Path Concrete Repair and Removal of Whatcoat Sign and the Catherine Boyd Memorial Stone at the Cemetery** (Attachment B)

Jody Reid stated that there are two separate proposed contracts for work to be considered. One is for concrete repair behind Old Church and the other one is for removal of the Whatcoat Sign and the Catherine Boyd Memorial Stone at the Cemetery. Bids were received from American Field Maintenance and HCS Services for both jobs. American Field Maintenance provided the lower bids for both projects. Staff has verified with other cities that American Field Maintenance is reputable and does good work.

City Manager Bill Andrew advised that the sign and memorial stone will be stored at the Maintenance shop. Mayor Eady has reached out to Professor Ellison with Emory University about facilitating a discussion regarding how to properly recognize the contributions of enslaved African Americans in the Oxford community. Other resources for this effort are also being sought.

Mr. Andrew also mentioned that the State owns the Whatcoat sign, and they have recommended that it be destroyed since it is being removed from its location. However, the City of Oxford has declined to destroy it until further discussion is held.

Art Vinson asked if there is some kind of reassurance that the items being removed will not be damaged while being moved or stored in the event a decision is made to restore them to their original places.

Jim Windham stated that the City requires a \$1,000,000 liability Certificate of Insurance for all contracts. Both of the items are outside currently, so storage should not cause them to deteriorate further. Jody Reid advised he plans to store them out of the way of normal work traffic flow.

4. **Consideration of the Recommendation to Change Credit Card Providers for In-Person Services and to Add Online and IVR (Phone) Payments for Citations** (Attachment C)

City Clerk Marcia Brooks stated that the City of Oxford has an opportunity to provide enhanced payment services for individuals paying for traffic citations by providing online and pay-by-phone options. The customer is charged a fee of 6% for using the service. There is no additional cost to the City, and there is no contract term.

In addition, the company, Government Window, can provide point-of-sale (POS) terminals at our lobby window which would allow us to accept Visa, Mastercard, Discover and American Express in person. We currently do not accept Visa payments in-house and must ask many customers for another form of payment because of this. There is no cost to the City for the POS terminals, and no cost per card transaction for the City. The cost to the customer in person is 4% of the amount being paid for citations, and 3.5% (1.50 minimum charge) for all other types of payments.

Ms. Brooks discussed the advantages of this arrangement, which were outlined in a memorandum to the City Council. She asked that these be voted on as two different issues, because either change would benefit the City Clerk's office staff.

She confirmed that she does not know at this time whether this service will integrate with BS&A software. However, since there is no long-term contract, it will not be a problem to transition to another company.

5. Consider a request by Mauldin & Jenkins to increase audit costs by 7% (Attachment D)

Bill Andrew stated that Mauldin & Jenkins, the City's audit firm, made a request to increase their fee for the FY 2022 audit by 7% over their original proposal. They indicated that they lost money on the FY 2021 audit and would like to recoup those losses. Mr. Andrew pointed out that even with the 7% increase, their proposed fee for the FY 2022 audit is still less than the fees proposed by the other bidders.

6. Update on the Dried Indian Creek Project Funding: Congressional Earmark, Transportation Alternatives Program (TAP), and Georgia Outdoor Stewardship Program (GOSP)

Bill Andrew presented an update on the funding for the Dried Indian Creek Project. He explained that the project is going to be more costly than originally believed, and that funding will need to come from several sources including the Congressional Earmark, TAP funds and GOSP funds along with a 20% match. The anticipated cost of the project is estimated to be about \$5 million and will cover stream restoration and development of a trail from around E. Soule Street to I-20.

The TAP application is due this Friday, and the City is required to commit to a match of \$250,000. Mayor Eady has advised Mr. Andrew he agrees the City needs to submit the application. There was no opposition from those present.

7. Other Business

- a. Consider moving the September 5, 2022 Regular City Council Meeting to September 6, 2022 at 7:00 p.m. to avoid a conflict with the Labor Day Holiday.**
The City Council agreed to make this change.

8. Work Session Meeting Review

- a. Contracts for repair of concrete behind Old Church and removal and storage of sign and memorial stone – vote in September regular session
- b. Payments online and by phone for citations and change of credit card providers for in-person transactions – vote in September regular session
- c. Increase Mauldin & Jenkins rate by 7% for the FY 2022 audit – vote in September regular session

9. Executive Session

None.

10. Adjourn

Mauldin & Jenkins is preparing the engagement letter for the FY 2022 audit and has reached out to staff to let us know their audit fees have increased. The firm has raised their rates 7% (since the initial contract with the City), due to continued rising costs. Mauldin & Jenkins had a very large write off in the first year of the audit and did not send any additional billings to the City.

Mauldin & Jenkins is asking if the City would be willing to agree to this 7% increase? Our current contract for 2022 is \$20,000 and the 7% would push us up to \$21,400.

From: Marcia Brooks, City Clerk/Treasurer

Re: Recommendation to Change Credit Card Providers for In-Person Services and to Add Online and IVR (Phone) Payments for Citations

Government Window is a company that integrates with our Case Management software, Courtware, for payment of traffic fines online and by phone. I would like to recommend that we sign an agreement with them for this service to help streamline work in the City Clerk's office. They also offer Point of Sale solutions for in-person customers for other types of payments, and I would like to recommend that we change from our current credit card provider for in-person payments for these services as well.

Advantages of signing agreement with Government Window

Payments for Citations Online and IVR

- When payments are made online or by phone, Courtware is automatically updated.
- Payers can see their appearance date for court in the software, and whether their payments make them eligible to avoid coming to court.
- No cost to City of Oxford. Full cost of transaction is passed on to payer – 6%
- No term for contract. City of Oxford is free to exit the contract at any time

In-Person Services

- Our current credit card services Provider, Govolution, would not allow us to charge customers a convenience fee for Visa utility bill payments, and they could not process Visa without a convenience fee and the other types with a convenience fee. Therefore, the City elected not to accept Visa payments in person (Visa is accepted online through a different credit card services provider, and accounts for about 75% of online payments each month).

Government Window does not have such a limitation. They charge the customer 3.5% or \$1.50 minimum for non-citation payments and 4% in person for citation payments. There is no cost to the City of Oxford – their full cost is passed along to the customer. For reference, current in-person fees passed to customers are 2.75% per transaction for MC, Discover, and Amex. While

the fee itself may be higher for some customers, being able to accept Visa in the office would help us tremendously in not having to see customers multiple times when they have to go get some other form of payment.

- No term for contract. City of Oxford is free to exit the contract at any time. We do not yet know the details of the payment services with our new vendor, BS&A. If BS&A cannot integrate with Government Window, we can move to the BS&A provider for most payments but still retain Government Window's services for payment of citations.
- Acceptance of Visa in the office will help reduce the manual tasks related to processing checks and cash, which must be kept in a till, balanced, and deposited. We frequently have customers wanting to pay Visa, which we cannot accept right now. Credit card deposits are automatically submitted to our bank, so no physical deposit is required for them.
- Our current in-person credit card processor does not provide customer-facing Point-of-Sale (POS) terminals. Staff must keep a separate web application open to process the credit card sale. Government Window offers customer-facing POS terminals, so staff only need to open the web application to process the card if the terminal will not accept the automated card process (this occurs occasionally with all credit card systems and is usually caused by the condition of the card).
- Our current in-person credit card processor charges us \$89 per year for encryption of credit card data, a PCI-DSS requirement. Government Window's applications and card readers are PCI-DSS compliant, and no additional charge is assessed by them for this service.

I would like to add that I have discussed this payment option with Judge Hathorn, and he is supportive of the change as long as the new web page includes attestations by the payer that are currently attested to on paper. The City of Covington utilizes Government Window for citation payments. A screenshot of their entry screen for payment of citations is attached. Our screen would look very similar, but with our logo and court information.

I would appreciate your consideration of these changes. Once the agreement is signed, Government Window would engage in a project period with us to get a web page set up for citation processing online, and to get us set up with the new POS terminals. We would also need to engage with Courtware to enable integration of the solution with their software.
